Enchanting Plantations Ltd

Notes to Financial Statements for the year ended March 31, 2022

Note No: 1

Company overview

Enchanting Plantations Limited (the "Company") is a company registered under the Indian Companies Act, 1956. The Company has not carried out any business during the year. The Company is a wholly owned subsidiary of Harrison's Malayalam Ltd. The management has decided to wind up the company as continuation of the wholly owned subsidiary would result in incurring heavy expenses towards the compliance cost and has applied to the Registrar of Companies ("RoC") for removal of its name pursuant to Section 248 of the Companies Act, 2013.

Note No: 2

A statement of significant accounting policies:

i. Basis of preparation

The financial statements are prepared in accordance with Indian Accounting Standards (IND ASs) notified under section 133 of Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standards), Rules 2015 and the other relevant provisions of the Act and Rules there under.

The Company's presentation and functional currency is Indian Rupees.

The shareholders of the Company intended to remove the name of the Company from the register of companies as continuation would result in incurring heavy compliance costs and accordingly passed a resolution to this effect in their general meeting held on March 30, 2022. The Company has applied for removal of its name to RoC and therefore the management makes an assessment that the entity is no longer a going concern and has prepared the financial statements without making the fundamental assumption that the entity is a going concern.

ii. Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and notes thereto. Differences between actual results and estimates are recognised in the period in which they materialise.

iii. Provisions, contingent liabilities and capital commitments.

- a. Provisions are recognised when the company has a present obligation as a result of a past event for which it is probable that a cash flow will be required and a reliable estimate can be made of the amount of the obligation.
- b. Contingent liabilities are possible obligations whose existence will only be confirmed by future events not wholly within the control of the Company, or present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability.

iv. Fair value measurement

- a. Considering the facts and circumstances existing on the reporting date, the financial assets and liabilities, in general, are measured to fair value and accounted the amortisation cost and comprehensive income as the case may be.
- b. The fair values of other financial assets and liabilities like cash, short term deposits/receivables, payables and other liabilities are approximated to their carrying amounts mainly due to their short term maturities and easy liquidity.
- c. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation technique as follows:
 - i. Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
 - ii. Level 2: inputs other than quoted prices included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
 - iii. Level 3: inputs for the assets or liability that are not based on observable market data (unobservable inputs)

v. Financial instruments

a. Recognition and initial measurement

All financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

b. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortized cost;
- Fair Value through Other Comprehensive Income (FVOCI) – equity investment; or
- Fair Value Through Profit and Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on de-recognition is recognized in profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss. Other net gains and losses are recognized in OCI and are not reclassified to profit or loss.

Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

c. **De-recognition**

Financial assets

The Company de-recognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial liabilities

The Company de-recognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also de-recognizes a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognized in profit or loss.

d. **Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

vi. Taxes on income

- a. Provision for current tax is made based on the tax payable under the Income-tax Act, 1961.
- b. Deferred tax on account of temporary differences and carried forward of unused tax credits and unused tax losses is accounted for, using the tax rates and the tax laws enacted or substantively enacted by the balance sheet date.
- c. Deferred tax assets is recognised and carried forward only to the extent that it is probable that the taxable profit will be available against which the assets will be realised in future.
- d. The carrying amount of deferred tax assets and unrecognised deferred tax assets are reviewed at each Balance Sheet date.

vii. Cash and cash equivalents.

Cash and cash equivalents include cash at bank and on hand. The deposits maintained by the company with banks comprise time deposit, which can be withdrawn by the company at any point of time.

Terms and rights attached to equity shares

The Company has only one class of shares referred to as equity shares having a par value of Rs. 10/- per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. The Board of Directors do not propose any dividend during the current year. No dividend was declared in the preceding year.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all preferential amounts. However, no such preferential amounts exist currently. The distribution will be in proportion to the number of equity shares held by the shareholders.
