Sustaining Nature, Enriching Lives, Shaping Tomorrow

With a legacy of more than a century, Harrisons Malayalam Ltd. remains deeply committed to sustainability, inclusivity, and environmental stewardship. Our over 7000 employees and around 30,000 dependents, and over 1.1 million people in surrounding communities are at the heart of this commitment.

In recent years, climate change has emerged as one of the most pressing challenges to agriculture and society at large. Erratic rainfall, rising temperatures, and extreme weather events have disrupted crop cycles, while also threatening the health, safety, and livelihoods of our people and communities.

Recognizing these risks, we have placed **sustainability at the core of our business model**. Our initiatives are designed to strengthen ecosystem resilience, promote sustainable production, and ensure long-term community well-being. Guided by a strong sense of responsibility, we continue to adopt eco-conscious practices that protect natural resources, enhance environmental resilience, and improve the quality of life for local communities.

Our Sustainability Approach

- **Environmental Preservation:** Plastic-free campaigns, tree-planting drives, and forest conservation efforts to safeguard biodiversity.
- **Community Well-being:** Comprehensive labour welfare programs, medical camps, and initiatives for children's education and nutrition.
- **Women & Child Empowerment:** Platforms promoting rights, safety, and opportunities for women and children; support for Self-Help Groups that foster dual-income households and community resilience.
- **Wildlife & Habitat Protection:** Measures to conserve forests and protect biodiversity.
- **Inclusive Growth:** Employment creation and socio-economic programs that strengthen livelihoods and reduce vulnerability.

To maximize effectiveness, all sustainability initiatives are integrated under a **unified framework**—ensuring consistency, accountability, and measurable impact. We also employ robust evaluation mechanisms to track progress, identify gaps, and drive continual improvement through data-driven decision-making.

Embedding Sustainability in Our Business

Our shift towards a sustainable growth model is reflected in both internal and external mechanisms:

- **CEO's Sustainability Award:** An inter-estate competition evaluating estates on Health, Hygiene, Environment, Quality of Life, Happiness, and Safety.
- **External Certifications:** RA certification, Trustea verification, and participation in RPG Group's EHS competitions.

With women constituting **57% of our workforce**, Harrisons Malayalam continues to champion inclusivity and equitable growth. Aligned with the **UN Sustainable Development Goals 2030**, we remain dedicated to protecting ecosystems, fostering community resilience, and building a **future-ready, climate-smart agricultural model**.

Harvesting the Future with Digital Intelligence

At Harrison's Malayalam Limited, we believe that the future of plantations lies in embracing digital transformation to enhance productivity, sustainability, and quality. Over the past year, the Company has taken significant strides in integrating advanced technologies such as Artificial Intelligence (AI), remote sensing, and Industry 4.0 practices into its core operations. These digital initiatives are reshaping our plantation management, enabling data-driven decisions, and reinforcing our commitment to operational excellence.

Key Digital Initiatives:

- **Pest & Disease Detection Solution:**
A remote sensing and AI-based model was deployed for early detection and control of Red Spider Mites in tea fields. This has strengthened our ability to safeguard crop health with timely interventions.
- **Pest & Disease Forecasting Solution:**
By leveraging AI models integrated with data from local weather stations, we are now able to forecast pest infestations in advance. This proactive approach minimizes crop loss and supports sustainable practices.
- **Crop Harvesting Time Forecasting:**
An AI-enabled forecasting tool was introduced to predict harvesting cycles based on weather conditions, historical data, and field-specific parameters. This ensures optimum harvest intervals and superior tea quality.
- **Green Leaf Quality Monitoring:**
Our factories are now equipped with AI-driven image analytics systems that assess the quality of harvested green leaf in real time. Alerts generated by the system help both field and factory teams maintain quality at every stage.
- **Energy Consumption Optimization (Industry 4.0):**
At Surianalle Tea Factory, real-time energy monitoring solutions supported by AI are reducing operational inefficiencies, particularly by optimizing withering trough fan usage. This has resulted in significant energy savings.
- **Local Weather Stations for Agri-Decision Making:**
Weather stations installed across all Tea and Rubber divisions provide real-time weather insights and 12-day forecasts. These empower estate teams to plan and execute agricultural operations with precision.
- **Data-Driven Agri-Intelligence Platform:**
A comprehensive agri-intelligence platform has been introduced in our Tea estates, mapping operations through geo-fenced areas. This enhances traceability, accountability, and efficiency in estate management.

Technology Adoption for Productivity and Quality:

- **Drip Irrigation in Tea Fields:**
Precision irrigation has been introduced at Surianalle estate, where the initial 10-hectare pilot has already delivered yield improvements of up to 52% over two years. Expansion plans are underway for all replanted fields.
- **High-Resolution Colour Sorting Machines:**
Our orthodox tea factories are now equipped with advanced colour sorting machines from Japan, significantly improving the appearance and quality of tea. This initiative has been well received by customers, boosting acceptance in premium export markets.

Through these initiatives, Harrison's Malayalam continues to position itself as a pioneer in digital transformation within the plantation sector. By integrating technology into every stage of our operations—from field to factory—we are building a more sustainable, efficient, and quality-driven future for the Company and its stakeholders.

Notes:

1. The explanatory statement pursuant to Section 102 of the Companies Act, 2013 (“the Act”), setting out all material facts concerning the special business under Item Nos. 3, 4 and 5 of the accompanying Notice, is annexed hereto and forms part of this Notice. The Board of Directors of the Company at its meetings held on August 08, 2025 considered that the special business under Item Nos. 3, 4 and 5 being considered unavoidable, be transacted at the 48th Annual General Meeting (“AGM”) of the Company.
2. In accordance with the Circular No. 14/2020 dated April 08, 2020, Circular No.17/2020 dated April 14, 2020 issued by the Ministry of Corporate Affairs followed by Circular No. 20/2020 dated May 05, 2020, Circular No. 02/2021 dated January 13, 2021, Circular No. 21/2021 dated December 14, 2021, Circular No. 2/2022 dated May 05, 2022, Circular No. 10/2022 dated December 28, 2022, Circular No. 09/2023 dated September 25, 2023 and Circular No. 09/2024 dated September 19, 2024 (collectively referred to as ‘MCA Circulars’) and Circulars dated May 12, 2020, January 15, 2021, May 13, 2022, January 05, 2023, October 07, 2023 and October 03, 2024 issued by the Securities and Exchange Board of India (‘SEBI’) and in compliance with the provisions of the Companies Act, 2013 (‘the Act’), Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (‘Listing Regulations’), the Forty-Eighth Annual General Meeting of the members of the Company (‘AGM’) is being held through Video Conferencing (VC)/Other Audio Visual Means (OAVM), without the physical presence of the members at a common venue. and has granted relaxation in respect of sending physical copies of the annual report to the shareholder. Accordingly, the 48th AGM of the Company is being held through VC / OAVM. The deemed venue for the 48th AGM shall be the Registered Office of the Company situated at 24/1624, Bristow Road, Willingdon Island Cochin – 682003. Hence, Members can attend and participate in the AGM through VC/OAVM only. The detailed procedure for participating in the Meeting through VC/OAVM is annexed herewith and also available at the Company’s website i.e www.harrisonsmalayalam.com.
3. **Pursuant to the provisions of the Act, a member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a Member of the Company. Since this AGM is being held pursuant to the MCA Circulars/SEBI Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility of appointment of proxies by the Members will not be available for the AGM and hence the Proxy Form, Attendance Slip and Road Map are not annexed to this Notice.**
4. Details of the Directors seeking appointment/ re-appointment at this AGM pursuant to Regulation 36(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI Listing Regulations”) and Secretarial Standards on General Meetings (SS-2) are appended to this Notice and forms part of this Notice.
5. In terms of Section 152 of the Act, Mr. Kaushik Roy (DIN 06513489) is liable to retire by rotation at this Annual General Meeting and being eligible, offers himself for re-appointment.
6. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their Depository Participant(s) with whom they are maintaining their demat account(s). Members holding shares in physical form can submit their PAN details to the Company or RTA.
7. SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2021/655 dated November 03, 2021 and clarification issued vide Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2021/687 dated December 14, 2021 and SEBI Circular No.

SEBI/HO/MIRSD-PoD-1/P/CIR/2023/37 dated March 16, 2023 has mandated all listed Companies to record/update the KYC details i.e. PAN, Nomination and Bank Account details of the first holder for the shares held in physical mode. The Company has sent a letter to all the Members holding shares in physical mode whose details are yet to be updated seeking the aforesaid information. Detailed information and forms in this regard is available at the Company's website at www.harrisonsmalayalam.com.

8. SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022 has mandated that the service requests received for Issuance of Duplicate Share Certificate, Release of Shares from Unclaimed Suspense Account of the Company, Renewal/ Exchange of Share Certificate, Endorsement, Sub-division/ Splitting of Share Certificate, Consolidation of Folios/ Share Certificates, Transmission and Transposition shall be processed by issuing shares in dematerialised form only and Physical Share Certificates shall not be issued by the Company to the Share Holder/Claimant. Also, in view of the Regulation 40 of the Listing Regulations, as amended with effect from April 25, 2022, securities of listed companies can now be transferred only in the demat mode. Members holding shares in physical form are therefore requested to convert their holdings into the demat mode to avoid loss of shares or fraudulent transactions and avail better investor servicing.

Further, as per SEBI's Master circular dated June 23, 2025, Members holding shares in physical form, whose folio(s) lack PAN, nomination details, contact details, Bank Account details or updated specimen signature, will only be eligible for payment, including dividend, interest or redemption, through electronic mode only, effective from April 01, 2024, upon updating the aforementioned details with the Registrar and Share Transfer Agent of the Company. Therefore, Members holding shares in physical form are requested to update the mentioned details by providing the appropriate requests through ISR forms with the Registrar and Share Transfer Agent.

9. Pursuant to the provisions of Section 72 of the Act, members may file nomination forms in respect of their physical shareholdings. Any member willing to avail this facility may submit to the Company's RTA in the prescribed statutory form. Should any assistance be desired, members should get in touch with the Company's RTA.
10. Attendance of Members through VC/OAVM facility shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
11. Since the Company has not declared any dividend after financial year 2013-14, the question of transfer of the dividend amount which remains unclaimed for a period beyond 7 years along with the corresponding equity shares to the Investor Education and Protection Fund / demat account of the IEPF Authority pursuant to Section 124 of the Companies Act, 2013 does not arise.
12. The Register of Directors and Key Managerial Personnel and their shareholding, maintained under Section 170 of the Act, and the Register of Contracts or Arrangements in which the directors are interested, maintained under Section 189 of the Act, will be available for inspection by the Members during the AGM. All the documents referred to in the accompanying Notice and Explanatory Statements, shall be available for inspection through electronic mode without any fee by the Members from the date of circulation of this Notice up to the date of AGM. Members seeking to inspect such documents can send an e-mail to agm@harrisonsmalayalam.com.
13. Subject to the receipt of requisite number of votes, the resolutions forming part of the AGM Notice shall be deemed to be passed on the date of AGM i.e. Tuesday, 23 September, 2025.
14. The Register of Members and Share Transfer Books of the Company will remain closed from Wednesday, 17 September, 2025 to Tuesday, 23 September, 2025 (both days inclusive).
15. Pursuant to the provisions of Section 124 of the Act, Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 read with the relevant circulars and amendments thereto ('IEPF Rules') the amount of dividend remaining unpaid or unclaimed for a period of seven consecutive years or more from the due date is required to be transferred along with the corresponding shares to the Investor Education and Protection Fund (IEPF), constituted by the Central Government. According to the Dividend including shares for the Financial Year 2013-14 and prior to that had been transferred by the Company to the Demat Account of the IEPF Authority ('IEPF Account') in terms of the IEPF Rules by following the prescribed procedure
16. The Company have not declared any dividend after financial year 2013-14 and hence no dividend and shares were required to be transferred to the IEPF Authority during the year under review. The Dividend including shares for the Financial Year 2013-14 and prior to that transferred to IEPF may be claimed only from the IEPF Authority by following the procedure prescribed under the IEPF Rules. The details of such Members and shares transferred are uploaded in the "Investor Relations" Section of the website of the Company viz. www.harrisonsmalayalam.com. Mr. Binu Thomas, Company Secretary is the Nodal Officer of the Company for the purpose of verification of such claims.
17. ANNEXURE TO THE NOTICE

STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 IN RESPECT OF ITEMS OF SPECIAL BUSINESS SET OUT IN THE NOTICE CONVENING THE FORTY EIGHTH ANNUAL GENERAL MEETING OF THE COMPANY TO BE HELD ON 23, SEPTEMBER 2025

Resolution No 3 - In terms of Section 149 read with Schedule IV of the Companies Act, 2013 ("the Act") and the rules framed thereunder, and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("SEBI Listing Regulations"), the Members of the Company, at the Forty-Fourth Annual General Meeting held on Wednesday, September 29, 2021, appointed Ms. Rusha Mitra (DIN: 08402204) as a Non-Executive, Independent Director for a term of five (5) consecutive years, effective from February 11, 2021, to February 10, 2026.

The Board of Directors, at their meeting held on August 08, 2025, upon the recommendation of the Nomination and Remuneration Committee and considering the expertise, experience and contribution made by Ms Rusha Mitra during her first term and based on her positive performance evaluation, recommended her re-appointment as Non-Executive, Independent Director for a second term of 5 (five) consecutive years effective February 11, 2026 upto February 10, 2031 (both days inclusive) subject to the approval of the Members of the Company by means of a special resolution. Ms. Mitra has granted the consent for her re-appointment as an Independent Director. Further, the Company has received declarations from her confirming that she continues to meet the criteria of Independence prescribed under sub-section (6) of Section 149 of the Act, Rules framed thereunder read with Schedule IV to the Act and the SEBI Listing Regulations and that her name is included in the databank as required under Rule 6(3) of the Companies (Appointment and Qualification of Directors) Rules, 2014. She also has confirmed that she is not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact her ability to discharge her duties as an Independent Director of the Company.

As per the declaration received from her, Ms. Mitra meets with the criteria of Independence, has not been debarred or disqualified from being appointed or continuing as Director of a Company by the Securities and Exchange Board of India, Ministry of Corporate Affairs or any other Statutory Authority. Also, she is not disqualified from being re-appointed as a Director in terms of Section 164 of the Act. Further, in terms of the requirements of Section 160 of the Act, the Company has received a notice in writing recommending her candidature to be appointed as a Director. In the opinion of the Nomination and Remuneration Committee and the Board, Ms. Mitra is independent of the Management and she possess the skills and capabilities required for the said role of an Independent Director of the Company. A brief profile of Ms. Rusha Mitra is set-out below:

Ms. Rusha Mitra is a Law Graduate from W B National University of Juridical Sciences, Kolkata. She is a Partner in the Corporate and Commercial practice group in Khaitan & Co Kolkata. Ms Mitra specialises in corporate restructuring, mergers, acquisitions, demergers, reconstructions, reorganisation and advises companies on wide range of corporate law matters and Insolvency and Bankruptcy related matters.

The disclosure as required under Regulation 36(3) of the Listing Regulations and the Secretarial Standards on General Meetings (SS-2) are provided as annexure forming part of this Notice.

In accordance with the provisions of Section 152(6) of the Act, Ms. Rusha Mitra would not be liable to retire by rotation during her second term of office as an Independent Director commencing from February 11, 2026.

The draft letter of re-appointment of Ms. Mitra containing terms and conditions of her re-appointment, is available for inspection by Members on the website of the Company at www.harrisonsmalayalam.com Except Ms. Mitra, being the appointee, none of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financially or otherwise, in passing of the resolution set out in Item No. 3 of this Notice. Further, the relatives of Ms. Mitra are also deemed to be interested in this resolution, to the extent of their shareholding in the Company, if any. The Board considers that Ms. Rusha Mitra continued association would immensely benefit the Company and recommends the Resolution at Item No. 3 for the approval of Members as a Special Resolution.

Resolution No- 4 Pursuant to the provisions of Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Third Amendment) Regulations, 2024, notified on December 12, 2024 ("Listing Regulations"), and the provisions of Section 204 of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, every listed company, based on the recommendation of the Board of Directors, shall appoint a Secretarial Auditor, who shall be a Peer Reviewed Company Secretary in Practice, for a term of 5 (five) consecutive years with the approval of its members at the Annual General Meeting.

Accordingly, the Board of Directors, at their meeting held on August 08, 2025, based on the recommendation of the Audit Committee, has recommended the appointment of **M/s. SEP & Associates**, Practicing Company Secretaries, Kochi ("SEP"), who are holding a valid Peer Review Certificate issued by the Institute of Company Secretaries of India (ICSI) (Peer Review No. 6780/2025, as Secretarial Auditors of the Company, to conduct the Secretarial Audit of the Company for a term of 5 (five) consecutive financial years commencing from the financial year 2025–26 till the financial year 2029–30, on the following terms and conditions, subject to the approval of the members at the ensuing 48th Annual General Meeting:

PARTICULARS AS REQUIRED UNDER SECTION 134(M) OF THE COMPANIES ACT, 2013

(ANNEXURE 'A' TO THE DIRECTORS' REPORT)

Pursuant to Rule 8(3) of the Companies (Accounts) Rules, 2014, particulars of Conservation of Energy, Technology Absorption etc. for the year ended March 31, 2025 are given below.

A) Conservation of Energy

i) Measures taken and impact on energy conservation:

During the year, the Company undertook several initiatives to enhance energy conservation and operational efficiency. Transparent roofing was introduced in factory buildings to maximize the use of natural daylight, thereby reducing dependence on artificial lighting and lowering electricity consumption. This initiative is being progressively implemented across all facilities.

Power efficiency has been improved through the installation of capacitors to optimize power factors, while Annual Maintenance Contracts (AMCs) for heater units and captive consumption practices have further supported operational efficiency. Regular descaling of hot water lines in heater units has been prioritized to maintain optimal energy performance. In addition, all newly procured motors comply with Energy Efficient (EE) standards, contributing to the overall reduction in energy usage. Standardization of spares and lubricants across factories has also been introduced as part of cost-optimization measures.

To address water requirements, supplementary storage tanks have been installed to utilize natural gravity-fed sources for both estate employees and factory operations. In line with our sustainability agenda, gasifiers have been deployed in rubber factories to reduce the consumption of estate-sourced fuel wood, thereby lowering dependence on fossil fuels.

ii) Utilization of alternate energy sources:

The Company utilizes eco-friendly briquettes, derived from agricultural waste, as an alternative energy source in its factories. In addition, trenching practices have been introduced in tea fields to facilitate efficient water harvesting and conservation.

B) Technology Absorption

i) Efforts toward technology absorption and resultant benefits

During the fiscal year, the Company advanced its technology integration efforts with a focus on enhancing efficiency and reducing costs. Notable achievements included fuel savings through the adoption of hot water generators and the initiation of a phased replacement of conventional steel chimneys in tea factories with low-maintenance concrete alternatives. In alignment with our commitment to energy efficiency, the Company is also undertaking a progressive transition from traditional lighting to energy-efficient LED systems across factories, offices, and residential areas. This initiative is expected to deliver substantial reductions in electricity consumption and associated costs.

ii) Research and Development (R&D) expenditure:

In pursuit of greener alternatives, the Company's research initiatives are progressively transitioning from traditional chemistry and biochemistry toward biotechnology. Current trials focus on the use of enzymes and beneficial microbes as sustainable substitutes for conventional acids and chemicals. Significant progress has also been achieved in de-proteinization chemistry, and efforts are ongoing to further advance this area.

C) Foreign Exchange Earnings and Outgo

In the fiscal year 2024-25, the Company earned foreign exchange amounting to ₹ 5390.17 lakhs through actual inflows. Simultaneously, foreign exchange outflows totaled Rs 120.30 lakhs in actual expenditures.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT (ANNEXURE 'B' TO THE DIRECTORS' REPORT)

OVERVIEW

TEA

The tea production in India for the period 2024-25 stood at 1,315.77 million kilograms. Within the total output, the CTC (Crush, Tear, Curl) segment remained the dominant category, contributing 1179.05 million kilograms (89.61%) of the overall production. The Orthodox variety accounted for 119.89 million kilograms (9.11%), while Green Tea production stood at 16.83 million kilograms (1.28%).

This production trend reflects the continued predominance of CTC teas in the Indian tea industry, catering primarily to the domestic market, which has a strong preference for this category. Orthodox tea, although smaller in volume, holds strategic importance due to its demand in traditional export markets such as West Asia, Russia, and parts of Europe. Green tea, though contributing a relatively minor share, has been witnessing steady growth owing to rising health consciousness and increasing demand in both domestic and international markets.

The production mix underscores India's ability to serve diverse consumer segments, balancing the mass-market demand for CTC teas with niche and premium categories like Orthodox and Green teas.

(Source: Tea board Website)

Outlook

The tea sector in India is expected to remain resilient in FY 2025–26, supported by stable domestic consumption and steady demand in key international markets. The production profile for 2024-25, with CTC teas comprising nearly 89.61% of the output, highlights the strong dependence on domestic consumption patterns, which continue to favor this category. This trend is likely to persist, with CTC production remaining the backbone of India's tea industry.

The Orthodox tea segment, while accounting for a smaller share, will continue to play a critical role in sustaining export revenues. Traditional overseas markets such as West Asia, Russia, and parts of Europe are expected to drive demand, although global geopolitical and economic uncertainties may influence trade flows. Strategic initiatives to diversify into newer geographies, coupled with quality improvement measures, could provide further growth opportunities in this segment.

The Green tea segment is anticipated to witness gradual expansion, fuelled by increasing health awareness and lifestyle changes among urban consumers in India, along with rising acceptance in export markets. Although its contribution to overall production is still modest, the long-term potential of this category remains significant.

Overall, FY 2025–26 is expected to be a period of cautious optimism for the Indian tea industry. While challenges remain in terms of costs and global market volatility, India's diversified production portfolio and strong domestic consumption base provide a solid foundation for sustained growth.

OVERVIEW

Rubber

The production of Natural Rubber (NR) in India during 2024–25 was 8,75,000 tonnes, compared to 8,57,000 tonnes in 2023–24, reflecting a marginal year-on-year increase.

The domestic consumption of NR during 2024–25 stood at 14,10,000 tonnes, slightly lower than the 14,16,000 tonnes recorded in the previous year, indicating a stable yet high level of demand from the automobile and manufacturing sectors.

To meet this demand, imports of NR rose to 5,50,918 tonnes in 2024–25, up from 4,92,682 tonnes in 2023–24. This widening reliance on imports underscores the persistent demand–supply gap, with domestic production meeting only around 62% of total consumption requirements. On the export side, India shipped 4,199 tonnes of NR during the year, marginally lower than the 4,819 tonnes exported in 2023–24, reflecting limited surplus availability.

Overall, the industry continues to face the challenge of bridging the production–consumption imbalance, which has direct implications on trade dynamics and pricing trends in the sector.

(Source: Rubber Board, Provisional Figures, 23 July 2025)

Outlook

The outlook for 2025–26 indicates that rubber prices are likely to remain elevated due to the persistent global shortfall and firm demand. India will continue to rely heavily on imports to bridge the demand–supply gap, though volatile global prices could put pressure on the trade balance. On a positive note, the expansion of rubber cultivation in the northeastern states is expected to strengthen domestic resilience and partially reduce dependence on imports. Industry forecasts also point to steady growth across

key demand sectors such as automotive, medical, industrial goods, and infrastructure, reflecting the sector's long-term potential. However, risks remain, particularly from any slowdown in auto manufacturing or adverse weather conditions in major producing regions, both of which could amplify price volatility.

RISKS AND CONCERN

Tea and rubber plantations remain highly vulnerable to the unpredictable forces of nature, making it imperative to continuously evolve and refine harvesting and cultivation practices. These sectors are inherently labour-intensive and subject to stringent labour laws, which add to operational complexities. Key challenges faced by the industry include high labour costs, substantial social welfare and infrastructure obligations, and rising energy and input costs. Seasonal labour shortages in certain regions further compound these challenges, often disrupting operations during critical harvest periods.

The unorganized sector constitutes a significant 52% of the industry and benefits from considerably lower production costs. This cost advantage arises primarily from its exclusion from statutory social security and welfare obligations mandated under the Plantation Labour Act—obligations that are fully complied with by players in the organized sector. Consequently, the organized sector remains under continuous pressure from the cost competitiveness of small-scale growers.

In addition, external factors such as climate change, volatility in global markets, increasing competition from exporting countries, and recurring labour shortages continue to pose risks to the long-term sustainability of the tea and rubber plantation industries.

To mitigate these challenges and build resilience, our strategic priorities include:

- Enhancing labour productivity through targeted mechanization and the deployment of efficient agricultural technologies.
- Investing in research and innovation to develop differentiated products and value-added offerings, thereby strengthening brand positioning and capturing greater value across the supply chain.
- Implementing sustainable agricultural practices to improve crop yields, ensure product quality, and reduce the environmental footprint.
- Expanding proprietary and acquired operations to achieve economies of scale and improve cost efficiencies.
- Strengthening supply chain resilience through diversification and improved forecasting mechanisms to address climatic and labour-related disruptions.
- Leveraging digital tools and data analytics to enhance farm management, optimize resources, and support real-time decision-making.

Looking ahead, the anticipated stabilization of rubber prices, combined with volume growth in both tea and rubber from our existing and new operations, is expected to bolster our financial performance. Our unwavering commitment to sustainability, innovation, and operational excellence will enable us to overcome industry headwinds and deliver long-term value for all stakeholders.

Through these concerted efforts, we are confident in our ability to navigate the complexities of the plantation industry and ensure sustainable growth, profitability, and socio-economic contribution in the regions where we operate.

HUMAN RESOURCES

HML employs 7181 number of permanent employees across its tea and rubber plantations. During the year under review, Harrisons Malayalam Ltd earned distinguished recognition through an array of prestigious rankings and awards.

Great Place to Work Recognition: Harrisons Malayalam Ltd. was ranked 21st in India's Best Companies to Work For 2025 by the Great Place to Work Institute, in collaboration with The Economic Times. The company was also recognized among the Best Workplaces in the Agri Industry, underscoring its commitment to employee well-being. **Innovation Award:** In 2025, the company was named among India's Top 50 Best Workplaces for Innovation, reflecting its efforts to foster a culture of creativity and progress. **Leadership Recognition.**

Industrial Excellence: Harrisons Malayalam Ltd.'s Achoor Factory was honored with the Kerala State Industrial Award 2024-25, marking the third consecutive year that the Achoor Estate has received this distinction.

The Company also received a Certificate of Recognition for Outstanding Employee Relations 2023–24 from the Employers Federation of Southern India. In addition, Harrisons Malayalam Ltd. won the prestigious Golden Leaf India Award (TGLIA) for its Lockhart Tea Factory at the Southern Tea Competition—an award jointly organized by the Tea Board of India and the United Planters' Association of Southern India (UPASI), recognizing the finest quality South Indian teas. These accolades collectively reaffirm Harrisons Malayalam Ltd.'s dedication to nurturing a positive workplace culture and sustaining excellence across its operations.

INTERNAL CONTROL SYSTEM

HML has in place an adequate Internal Control system commensurate to its size and nature of operations. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable statutes, safe guarding the assets from unauthorized use or loss, extending transactions with proper operation and

ensuring compliance of corporate policies. Internal Control is supplemented by regular management review, documented policies and procedures, as also internal audits. The Company has an Audit Committee, details of which have been provided in the Corporate Governance report. The Audit Committee reviews Audit Reports submitted by Internal Auditors. Suggestions for improvement are considered and the Audit Committee follows up implementation of corrective actions. The Committee also meets the Company's statutory auditors to ascertain their views on the adequacy of internal control systems in the Company and keeps the Board informed of its major observations from time to time.

Finance

During the year under review, the Company has recorded revenue of ₹ 513.91 crores from its operations as compared to ₹ 488.12 crores for the previous year. The total revenue, including other income for the FY 2024-25 was ₹ 525.73 crores as compared to ₹ 496.86 crores for the previous year. The total comprehensive income made by the Company for the FY 2024-25 was ₹ 10.26 Crores as against a loss of ₹ 12.27 Crores for the previous year. Key financial ratios are given below and the reason for variance in ratios exceeding 25% is because of increase in prices of tea and rubber. During the year under review, the Return on Net Worth improved significantly from (5.20%) in the previous financial year to 9.85% in the current financial year, primarily on account of improved operational performance. Higher realizations on account of favourable product prices, coupled with effective cost management, contributed to the enhanced profitability.

Our responsibility as Secretarial Auditors is to issue a Secretarial Audit Report, based on the audit of the relevant record maintained and furnished to us by the Company, along with explanations where so required.
3. During the audit, we have followed the practices and processes as were appropriate, to obtain reasonable assurance about the correctness of the contents of the Secretarial and other records, legal compliance mechanism and corporate conduct. We believe that the process and practices we followed provide a reasonable basis for our Secretarial Audit Report.
4. The correctness and appropriateness of financial records and Books of Accounts of the Company have not been verified.
5. We have obtained the Management representation about the Compliance of laws, rules and regulations and happening of events etc., wherever required. The Secretarial Audit Report is neither an assurance as to the future viability of the Company nor of the efficiency or effectiveness with which the management has conducted the affairs of the Company.
6. While forming an opinion on compliance and issuing the Secretarial Audit Report, we have also taken into consideration the compliance related actions taken by the Company after 31st March 2025 but before issue of the Report.
7. We have considered actions carried out by the Company based on independent legal/professional opinion as being in compliance with law, wherever there was scope for multiple interpretations.

ANNEXURE G TO THE DIRECTORS' REPORT WELFARE ACTIVITIES

Harrisons Malayalam Ltd. (HML), one of South India's leading plantation companies, is engaged in the cultivation of tea and rubber, along with minor crops such as pineapple, cardamom, pepper, and other spices. The Company provides direct employment to approximately 7,669 individuals and extends support to their families and dependents by offering free housing, electricity, water, and healthcare facilities. HML is the second-largest employer in Kerala, next only to the State Government, and plays a pivotal role in sustaining livelihoods across the region.

Integral to HML's operations is its strong commitment to corporate social responsibility, which reflects the Company's values as a conscientious corporate citizen. The leadership of HML has adopted a comprehensive approach that embeds social welfare into its operations, with a focus on health, safety, education, and environmental sustainability.

The Company accords the highest importance to both product safety and workplace safety, adhering strictly to plant protection residue guidelines and ensuring compliance with FSSAI standards. The principal focus areas of HML's welfare activities are health, education, and environmental stewardship, designed to benefit employees as well as communities residing in and around its estates. Key initiatives are outlined below:

1. Health

HML provides medical assistance not only to employees and their families but also to neighboring communities within estate areas. Special medical support is extended to tribal colonies and old-age homes, ensuring inclusive healthcare outreach. The Company operates hospitals that provide affordable and accessible healthcare services to the general public at nominal charges.

2. Environment and Education

HML has established an institution dedicated to serving mentally challenged children by providing education and healthcare support. In addition, HML-managed plantations operate schools of varying capacities to ensure access to quality education for children in estate communities.

Preservation of natural habitats within plantations is a key priority, with ongoing efforts to promote biodiversity conservation in surrounding areas. The Company actively pursues soil preservation, water management initiatives, and self-development programs aimed at environmental sustainability.

3. Community Initiatives

The Company continues to undertake a wide range of community welfare programs aimed at improving quality of life and fostering inclusive growth. These initiatives collectively strengthen community well-being while promoting long-term socio-economic resilience.

Throughout the year, HML undertook several educational environmental programs and community initiatives, the details of which are provided below.

INDEPENDENT AUDITOR’S REPORT

To the Members of Harrisons Malayalam Limited

Report on the Audit of the Standalone Financial Statements

Opinion

- 1. We have audited the accompanying standalone financial statements of Harrisons Malayalam Limited ('the Company'), which comprise the Standalone Balance Sheet as at 31 March 2025, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Cash Flow and the Standalone Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including material accounting policy information and other explanatory information.
- 2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

- 3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

- 4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
- 5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matters
<p>Land litigations</p> <p>The Plantation Company holds significant land for its operations as disclosed in note 3 to the standalone financial statements. The significant land holdings are inherently prone to litigation risk.</p> <p>As disclosed in note 42(A) of the standalone financial statements, the Company has pending litigations with various courts, involving 17,318.21 hectares of land, which is significant considering the total area of cultivable land. The land litigations involve interpretation of various land laws applicable in the States of Kerala and Tamil Nadu. Accordingly, unexpected adverse outcomes may significantly impact the operations of the Company.</p> <p>Considering the eventual outcome of the litigations is uncertain and the positions taken by the management are based on the application of the material judgement and reliance on legal opinions obtained, land litigations has been considered as a key audit matter for the current year audit.</p>	<p>Our audit procedures included, but were not limited to, the following:</p> <ul style="list-style-type: none">• Obtained an understanding of the management process for ascertaining the outcome of the land litigations and process performed by the management for its assessment ;• Evaluated the design and tested the operating effectiveness of internal controls around management's assessment of the outcome of the land litigations ;• Obtained an understanding of the nature of litigations pending against the Company and discussed the key developments during the year for key litigations with the management and respective legal counsels handling such cases on behalf of the Company and tested the independence, objectivity and competence of such management experts involved;• Monitored and considered the external information sources to confirm our understanding of litigations;• Obtained and reviewed on a sample basis the necessary evidence which includes correspondence with the external legal counsels and where necessary, inspected minutes of case proceedings available, to support the decisions and rationale of such litigation selected for testing;

	<ul style="list-style-type: none"> Reviewed each attorney response obtained as above to ensure that the conclusions reached are supported by sufficient legal rationale and adequate information is included for the management to determine the appropriate accounting treatment of such cases in the standalone financial statements; and Evaluated the adequacy and appropriateness of disclosures made relating to provisions and contingent liabilities in the accompanying standalone financial statements in accordance with the requirements of the applicable accounting standards.
<p>Valuation of finished goods including standing crops</p> <p>Refer to note 2(j) for accounting policy for valuation of inventory and significant estimates and accounting judgements, assumptions related thereto and the note 7 of the standalone financial statements for details of inventory.</p> <p>As at 31 March 2025, the Company held Rs. 1994.28 lakhs of inventories. Inventories mainly consist of finished goods and standing crops, which is valued at lower of cost or net realizable value.</p> <p>The Company values its finished goods inventory of tea and rubber (including biological assets) at lower of cost and net realizable value (estimated selling price less estimated cost to sell). Standing crops for tea and rubber at the reporting date are valued at their fair value less cost to sell at the point of harvest. The fair valuation so arrived at becomes the cost of Inventory. Considering that there is always a volatility in the selling price of tea and rubber, which is dependent upon various market conditions, determination of the net realizable value for these commodities involves significant management judgement. Moreover, the selling price fetched by tea produced at different estates are different.</p> <p>Owing to the significance of the carrying value of finished goods (including biological assets) inventory the complexities discussed above and the fact that any changes in the management's judgement or assumptions is likely to have a significant impact on the ascertainment of carrying values of inventories, valuation of finished goods (including biological assets) have been considered as a key audit matter for current year audit.</p>	<p>Our audit procedures included, but were not limited to, the following:</p> <ul style="list-style-type: none"> Obtained an understanding of the management process for valuation of finished goods and ensured that the same is consistently applied; Evaluated the design and tested the operating effectiveness of the internal controls relating to the valuation of inventories; Obtained an understanding on the computation of the net realizable values of the finished goods and tested the reasonableness of the significant judgements applied by the management; Compared the estate wise actual realization subsequent to reporting date and assessed the reasonableness of the net realizable value that was estimated and considered by the management; Verified the actual costs incurred to sell after the year end and assessed the reasonableness of the cost to sell that was estimated and considered by the management; Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value; and Assessed the appropriateness and adequacy of disclosures related to finished goods inventory in accordance with the with the requirements of the applicable accounting standards.

Information other than the Standalone Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial

performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
11. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
16. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
17. Further to our comments in Annexure I, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) Except for the matters stated in paragraph 17(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books. Further, the back-up of the books of accounts and other books and papers maintained in electronic mode has not been maintained on servers physically located in India, on a daily basis;
 - c) The standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025 from being appointed as a director in terms of section 164(2) of the Act;
 - f) The qualification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 17(b) above on reporting under section 143(3)(b) of the Act and paragraph 17(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended);
 - g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2025 and the operating effectiveness of such controls, refer to our separate report in Annexure II wherein we have expressed an unmodified opinion; and
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company, as detailed in note 33 and 42 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2025;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2025;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2025;
 - iv.
 - a. The management has represented that, to the best of its knowledge and belief, as disclosed in note 46(c) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Company to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
 - b. The management has represented that, to the best of its knowledge and belief, as disclosed in note 46(d) to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- c. Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
- v. The Company has not declared or paid any dividend during the year ended 31 March 2025; and
- vi. As stated in note 47 to the standalone financial statements and based on our examination which included test checks, except for the instances mentioned below, the Company, in respect of financial year commencing on 1 April 2024, has used an accounting software for maintaining its books of account which have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. The audit trail has not been preserved by the Company as per the statutory requirements for record retention. Further, due to absence of any information on preservation of audit trail of the Type 2 report, we are unable to comment on preservation of audit trail at the database level.

Nature of exception noted	Details of exception

Note 1: Title deeds of the immovable properties set out in the above table are in the name of Malayalam Plantations Limited (MPL)/Harrisons Crosfield Ltd (HCL) except as set out below which are in the name of the Company. Inter alia, the immovable properties of MPL got transferred to and vested in Malayalam Plantations (India) Limited (MPIL) vide a Scheme of Arrangement and Amalgamation in 1978. Further, inter alia the immovable properties of Harrisons Crosfield (India) Limited got transferred and vested in MPIL vide a Scheme of Arrangement and Amalgamation in 1984. The name of MPIL a Company incorporated in 1978 got changed to Harrisons Malayalam Limited in 1984.

- (d) The Company has not revalued its property, plant and equipment including right-of-use assets or intangible assets during the year.
- (e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.
- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed as compared to book records.

- (b) As disclosed in note 14 to the standalone financial statements, the Company has been sanctioned a working capital limit in excess of ₹ 5 crores by banks based on the security of current assets. The quarterly statements, in respect of the working capital limits have been filed by the Company with such banks and such statements are in agreement with the books of account of the Company for the respective periods which were subject to audit / review, except for the following:

Name of the Bank / financial institution	Working capital limit sanctioned	Nature of current assets offered as security	Quarter	Information disclosed as per return	Information as per books of accounts	Difference

- (e) In our opinion and according to the information and explanations given to us and on an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary.
- (f) In our opinion and according to the information and explanations given to us, the Company has not raised any loans during the year on the pledge of securities held in its subsidiary.
- (x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no fraud on the Company has been noticed or reported during the period covered by our audit.
- (b) According to the information and explanations given to us including the representation made to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.
- (c) According to the information and explanations given to us including the representation made to us by the management of the Company, there are no whistle-blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- (xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company with the related parties are in compliance with sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the standalone financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act.
- (xiv) (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system which is commensurate with the size and nature of its business as required under the provisions of section 138 of the Act.
- (b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.
- (xv) According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and accordingly, reporting under clause 3(xv) of the Order with respect to compliance with the provisions of section 192 of the Act are not applicable to the Company.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under clauses 3(xvi)(a), (b) and (c) of the Order are not applicable to the Company.

Annexure II to the Independent Auditor's Report of even date to the members of Harrissons Malayalam Limited on the standalone financial statements for the year ended 31 March 2025

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Harrissons Malayalam Limited ('the Company') as at and for the year ended 31 March 2025, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on the Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on the Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of the Standalone financial statements

(All amounts in ₹ lakhs, unless otherwise stated)

1. Background

Harrisons Malayalam Limited ("the Company") is a Public Company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed in two recognised stock exchanges in India (NSE and BSE). The registered office of the Company is located at 24/1624, Bristow Road, Willingdon Island, Kochi. The Company is principally engaged in plantations having tea and rubber estates in Kerala and Tamil Nadu.

2. Summary of material accounting policies

a) Basis of preparation and presentation of financial statements

i) Statement of compliance with Indian Accounting Standards (Ind AS)

The Standalone financial statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and as amended. The aforesaid Standalone financial statements have been approved and authorised for issue by the Board of Directors at the meeting held on 23 May 2025.

ii) Basis of accounting and measurement

The Company has prepared these financial statements which comprise the Balance Sheet as at 31 March 2025, the Statement of Profit and Loss, the Statements of Cash Flows and the Statement of Changes in Equity for the year ended 31 March 2025, and accounting policies and other explanatory information (together hereinafter referred to as "Standalone financial statements").

The Standalone financial statements have been prepared using the material accounting policies and measurement bases summarized below. These accounting policies have been used throughout all periods presented in these financial statements except for the changes below.

The Standalone financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, unless otherwise stated. All amounts included in the Standalone financial statements are reported in Indian Rupees (₹) lakhs and have been rounded off to nearest decimal of ₹ lakhs.

b) Use of estimates

The preparation of the Standalone financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The Company bases its estimates and assumptions on parameters available when the Standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Significant management judgements

The following are significant management judgements in applying the accounting policies of the Company that have the most significant effect on the amounts recognised in the Standalone financial statements or that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Classification of leases

The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at the end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialised nature of the leased asset.

Recoverability of advances / receivables

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Useful lives of depreciable / amortisable assets

Management reviews its estimate of the useful lives of depreciable / amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain items of property, plant and equipment.

Contingent liability

Management reviews its estimate of the financial impact of the contingent liability at each reporting date, based on the demands received from various departmental authorities.

Litigations

Management reviews its estimate of the impact of the litigations liability at each reporting date, based on the land matters pending with various Courts.

Defined benefit obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Valuation of Agricultural Produce

Produce growing on bearer plants are biological Assets and are 'fair valued' based on biological transformations. As at the Balance Sheet date, the management has determined that it can reliably measure the biological transformations of its growing produce and such growing produce and agricultural produce have been measured at 'fair values' based on the management's estimates of expected produce. 'Fair values' have been assessed at market prices at the reporting date and adjusted for estimates of costs to be incurred from the reporting date until harvest. Considering the susceptibility of the estimates to variations, these estimates and assumptions are reviewed at every reporting date until harvest and revisions to the 'fair values' carried out on a cumulative basis. Such variations are considered as change in estimates and are presented as part of changes in inventories of finished goods.

c) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has evaluated and considered its operating cycle as 12 months.

d) Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalised until the property, plant and equipment are ready for use, as intended by management.

Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Cost includes inward freight, non refundable duties/ taxes and expenses incidental to acquisition/installation. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Capital work in progress is stated at cost, net of accumulated impairment loss, if any

Expenses relating to new planting and further expenditure incurred at the replanted fields are capitalised.

Property, plant and equipment [other than freehold land and lease hold land (perpetual lease)] are depreciated under the written down value method [other than bearer plants (rubber trees and tea bushes) which are depreciated using straight line method] over the estimated useful lives of the assets, which are different from the lives prescribed under Schedule II to the Companies Act, 2013. The useful lives have been arrived at based on technical assessment of the management.

Freehold land and leasehold land (perpetual lease) are not depreciated.

Useful life adopted by the Company for various class of assets is as follows:

Asset category	Useful lives (in years)
Factory buildings	30
Non factory buildings	60
Plant and machinery (including agricultural assets)	3/ 20
Furniture and fittings	6
Water supply	20/ 30/ 60
Vehicles	10
Bearer plants - Rubber trees	28
Bearer plants - FSO	15 - 30
Bearer plants - Tea bushes	80

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each financial year end and, if expectations differ from previous estimates, the changes shall be accounted for as a change in an accounting estimate.

In the case of leasehold improvements, expected useful lives are determined as their useful life or over the term of the lease, if shorter.

Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the assets and are recognised in Standalone statement of profit and loss within other income or other expenses.

e) **Bearer Plants**

Bearer plants are recognised under Property, Plant and Equipment on fulfilment of the following conditions.

1. Is used in the production or supply of agricultural produce;
2. Is expected to bear produce for more than one period; and
3. Has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales."

Tea bushes and rubber trees are recognised as bearer biological assets. These are classified as mature bearer plants and immature bearer plants. Mature bearer plants are those that have attained harvestable stage. Cost incurred for new plantations and immature areas are capitalised. Cost includes cost of land preparation, new planting and maintenance till maturity. The cost of areas coming into bearing is transferred to mature plantations and depreciated over their estimated useful lives.

Bearer plants relating to tea bushes and rubber trees attain a harvestable stage in about 4 years & 7 years respectively. Other minor crops attain harvestable stage in about 5-7 years.

Bearer biological assets are carried at cost less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure on bearer assets are added to its book value only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Mature bearer plants are depreciated over their estimated useful life. Immature bearer plants are tested for impairment / obsolescence. The estimated useful life of mature bearer plants is as follows

Type of Bearer plants	Estimated useful life (in years)
Tea bushes	80
Rubber trees	28
FSO	15 - 30

Refer Para 2(j) for accounting of agricultural produce.

f) Intangible assets and Intangible assets under development

Computer software is capitalised in the period in which the software is implemented for use, where it is expected to provide future enduring economic benefits; such capitalisation costs include license fees and cost of implementation/ system integration services.

Computer software capitalised are amortised on a straight line basis over a period of five years from the date of capitalisation.

Intangible assets not ready for the intended use on the date of the Balance Sheet are disclosed as intangible assets under development

g) Impairment of property, plant and equipment and intangible assets

The carrying amounts of property, plant and equipment are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of property, plant and equipment exceeds the recoverable amount (i.e. higher of net selling price and value in use). In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amounts of the assets over their remaining useful lives.

h) Assets held for sale

Items of property, plant and equipment that have been retired from active use and are held for disposal are stated at the lower of their net carrying amount and net realisable value and are shown separately in the Standalone financial statements under the head 'Assets classified as held for sale'. Any write-down in this regard is recognised immediately in the Statement of Profit and Loss.

i) Revenue recognition

Revenue from contracts with customers is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

The specific recognition criteria described below must also be met before revenue is recognised.

Revenue from sale of goods

Revenue from sale of tea at auction is recognized on receipt of the sale note from the brokers. Revenue from sale of tea other than at auction and sale of rubber is recognized on transfer of significant risks and rewards of ownership in goods in accordance with the terms of sale.

Revenue from contract with customers

The Company recognizes the amount as revenue from contracts with customers, which is received for the transfer of promised goods to customers in exchange for those goods. The relevant point in time or period of time is the transfer of control of the goods. Revenue is reduced for customer returns, taxes on sales, estimated rebates and other similar allowances. The transaction price is determined and allocated to the performance obligations according to the requirements of Ind AS 115. Performance obligations are deemed to have been met when the control of goods is transferred to the customer.

The Company has entered into a barter arrangement with vendors wherein the vendors are allowed to cultivate pineapple in few rubber estates with a condition that these vendors are to bear the cost of replanting of rubber plants in these estates, in lieu of cultivation rent otherwise payable by vendors to the company. The transaction price in the above arrangement has been accounted at fair value as per Ind AS 115 Revenue from contracts with customers.

Interest income

Interest income is reported on an accrual basis using the effective interest method and is included under the head "Other income" in the Statement of Profit and Loss.

Export Incentive

Income from export incentives are recognised when right to receive credit as per the terms of the scheme is established and when there is certainty of realisation.

j) Inventories including biological assets / standing crops

Valuation of inventory of finished products of tea and rubber have been done as per Ind AS 2 'Inventories'. Raw materials, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Net realisable value represents the estimated selling price less all estimated cost of completion and selling expenses. Cost is determined on weighted average basis and includes expenditure incurred in the normal course of business in bringing inventories to its location and condition, labour and overhead, where applicable. Stores and spares are carried at cost. Provision is made for obsolete, slow-moving and defective stocks, where necessary.

Produce growing on bearer plant is biological asset and are fair valued based on the biological transformation, except where on initial recognition quoted market prices are not available and alternate fair value measures are clearly unreliable in which case biological asset is measured at cost less any accumulated depreciation and impairment loss. Ind AS 41 'Agriculture' deals with the recognition and valuation of agricultural produce. Tea and rubber viz. standing crops of tea and rubber are designated as agricultural produce as per Ind AS 41 and are measured at their fair value less cost to sell at the point of harvest. Any changes in fair value are recognised in the Statement of Profit and Loss in the year in which these arise upon harvest. The Company has valued its standing crops for tea and rubber at the reporting date at their fair value less cost to sell at the point of harvest. The fair valuation so arrived at becomes the cost of Inventory under Ind AS-2.

k) Employee benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Ind AS 19, Employee Benefits.

Defined contribution plan

(i) Provident fund

This is a defined contribution plan where contributions are remitted to provident fund authorities in accordance with the relevant statute and charged to the Statement of Profit and Loss in the period in which the related employee services are rendered. The Company has no further obligations for future provident fund benefits in respect of these employees other than its monthly contributions.

(ii) Superannuation

This is a defined contribution plan. The Company contributes as per the scheme to superannuation fund administered by Life Insurance Corporation of India (LIC). The Company has no further obligations for future superannuation benefits other than its annual contributions and recognises such contributions as expense in the period in which the related employee services are rendered.

Defined benefit plan

(i) Gratuity

This is a defined benefit plan. Provision is based on year-end actuarial valuation using projected unit credit method. Actuarial gains / losses are recognised immediately in the Statement of Profit and Loss as income or expense.

(ii) Compensated absences

This is a defined benefit plan. Provision is based on year-end actuarial valuation using projected unit credit method. Actuarial gains/ losses are recognised immediately in the Statement of Profit and Loss as income or expense.

The present value of the defined benefit obligation denominated in ₹ is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Service cost on the Company's defined benefit plan is included in employee benefits expense. Employee contributions, all of which are independent of the number of years of service, are treated as a reduction of service cost. Gains and losses through re-measurements of the defined benefit plans are recognised in other comprehensive income, which are not reclassified to profit or loss in a subsequent period. Further, as required under Ind AS compliant Schedule III, the Company transfers those amounts recognised in other comprehensive income to retained earnings in the statement of changes in equity and balance sheet.

Short-term employee benefits

Short-term employee benefits comprise of employee costs such as salaries, bonus etc. These benefits recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

l) Foreign currency transactions

Functional and presentation currency

The functional currency of the Company is the Indian Rupee. These Standalone financial statements are presented in Indian Rupees (₹).

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in Statement of Profit or Loss.

m) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

n) Investments in subsidiaries

The Company's investment in equity instruments in subsidiaries are accounted for at cost. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is transferred to the Statement of Profit and Loss.

o) Government grants/ Subsidy

Revenue subsidy receivable from Tea Board towards manufacture of orthodox tea is accrued on production of orthodox tea. Revenue subsidy receivable from Tea Board towards replanting activities undertaken is accounted on sanction of such subsidy by the Tea Board. Capital subsidy from Tea Board and Rubber Board is adjusted against the cost of specific depreciable assets on receipt of such subsidy.

p) Income taxes

Income tax expense comprises of current and deferred income tax. Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognised as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

q) Provisions and contingencies

Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or it cannot be measured with sufficient reliability. The Company does not recognise a contingent liability but discloses its existence in the Standalone financial statements.

r) Financial instruments

Financial assets

Initial recognition and measurement

Financial assets (other than trade receivables) are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through statement of profit and loss which are measured initially at fair value. Subsequent measurement of financial assets is described below. Trade receivables are recognised at their transaction price as the same do not contain significant financing component.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified and measured based on the entity's business model for managing the financial asset and the contractual cash flow characteristics of the financial asset at:

- a. Amortised cost
- b. Fair value through other comprehensive income (FVTOCI) or
- c. Fair value through profit or loss (FVTPL)

All financial assets are reviewed for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

(i) Financial asset at amortised cost

Includes assets that are held within a business model where the objective is to hold the financial assets to collect contractual cash flows and the contractual terms gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are measured subsequently at amortised cost using the effective interest method. The loss allowance at each reporting period is evaluated based on the expected credit losses for next 12 months and credit risk exposure. The Company shall also measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.

(ii) Financial assets at fair value through other comprehensive income (FVTOCI)

Includes assets that are held within a business model where the objective is both collecting contractual cash flows and selling financial assets along with the contractual terms giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. At initial recognition, the Company, based on its assessment, makes an irrevocable election to present in other comprehensive income the changes in the fair value of an investment in an equity instrument that is not held for trading. These elections are made on an instrument-by-instrument (i.e., share-by-share) basis. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, impairment gains or losses and foreign exchange gains and losses, are recognised in other comprehensive income. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. The dividends from such instruments are recognised in statement of profit and loss.

The fair value of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

The loss allowance at each reporting period is evaluated based on the expected credit losses for next 12 months and credit risk exposure. The Company shall also measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. The loss allowance shall be recognised in other comprehensive income and shall not reduce the carrying amount of the financial asset in the balance sheet.

(iii) *Financial assets at fair value through profit or loss (FVTPL)*

Financial assets at FVTPL include financial assets that are designated at FVTPL upon initial recognition and financial assets that are not measured at amortised cost or at fair value through other comprehensive income. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply. Assets in this category are measured at fair value with gains or losses recognised in statement of profit and loss. The fair value of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

The loss allowance at each reporting period is evaluated based on the expected credit losses for next 12 months and credit risk exposure. The Company shall also measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. The loss allowance shall be recognised in the statement of profit and loss.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's Standalone balance sheet) when:

- a. The rights to receive cash flows from the asset have expired, or
- b. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (i) the Company has transferred substantially all the risks and rewards of the asset, or (ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset."

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109 Financial Instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

Loans and borrowings

"This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings."

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derivative financial instruments

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

s) Impairment of financial assets

In accordance with Ind AS 109 Financial Instruments, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

The Company tracks credit risk and changes thereon for each customer. For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity uses the remaining contractual term of the financial instrument.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The Company uses default rate for credit risk to determine impairment loss allowance on portfolio of its trade receivables.

Trade receivables

The Company applies approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of receivables.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

The presumption under Ind AS 109 with reference to significant increases in credit risk since initial recognition (when financial assets are more than 30 days past due), has been rebutted and is not applicable to the Company, as the Company is able to collect a significant portion of its receivables that exceed the due date."

t) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

u) Segment reporting

The Company is engaged in plantations having tea and rubber estates. The business segments identified for segment reporting are Tea, Rubber and Others as the Chief Operating Decision Maker (CODM) reviews business performance at these levels. The Company has considered business segments as the primary segment. The business segments are tea, rubber and others which have been identified taking into account the organisational structure as well as the differing risks and returns of these segments.

v) Earnings/ (loss) per share (EPS)

Basic EPS are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the Company (after adjusting for interest on the convertible preference shares, if any) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

w) Leases

"Effective from 1st April 2019, the Company adopted Ind AS 116 – Leases and applied the standard to all lease contracts existing as on 1st April 2019 using the modified retrospective method on the date of initial application i.e. 1st April 2019.

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

i. As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. Subsequently, the lease liability is measured at amortised cost using the effective interest method.

It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short term leases of real estate properties that have a lease term of 12 months. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Operating Lease

In the comparative period, leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases."

ii. As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature."

x) Cash and cash equivalents

Cash and cash equivalent in the statement of financial position comprises of cash at banks and on hand, demand deposits, short-term deposits with an original maturity of three months or less and highly liquid investments that are readily convertible into known amounts of cash, which are subject to an insignificant risk of changes in value.

y) Recent accounting pronouncements

Standards issued but not effective on Balance Sheet date:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended March 31, 2025, MCA has notified Ind AS 117 - Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and lease back transactions, applicable from April 1, 2024. The Company has assessed that there is no significant impact on its financial statements.

Ind AS 21 - Foreign Currency Reporting

The amendments gives clear guidance on how to estimate the 'spot exchange rate' when two currencies cannot be exchanged easily. The new rules will be effective from April 2025. The Company does not expect this amendment to have any significant impact in its financial statements.

Trade receivables ^		1,501.00	1,325.15	175.85

* Based on the sanction letter from banks, value of four months standing crops has been considered in the returns filed with banks. The value of 14 days' crop for tea and 4 days' crop for rubber has been considered for the purpose of valuation in the financial statements, on a prudent basis.

** The difference is on account of adjustments to valuation of inventory on change in net realisable value.

^ The difference is on account of reversal of revenue from contracts where performance obligation was met after the cut off date.

The above adjustments in respect of inventory and receivables are made after the date of initial filing of quarterly returns, but before the finalisation of books of accounts for the respective quarters. Revised statements have been filed with the bank, which are in agreement with the books of accounts.

Assets:

The management assessed that the fair value of cash and cash equivalents, trade receivables, loans, other financial assets, trade payables, other financial liabilities and working capital loans approximate the carrying amount largely due to short-term maturity of this instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

(ii) Fair value of financial assets and liabilities measured at amortised cost

The management assessed that for amortised cost instruments, fair value approximate largely to the carrying amount.

(iii) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(iv) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments: The fair value of foreign exchange forward contracts is determined using market observable inputs, including prevalent forward rates for the maturities of the respective contracts, and interest rate curves as indicated by banks and third parties.

39 Capital management

The capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

40 Financial risk management

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimise potential adverse effects on it's financial performance. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer.

The risk management activity focuses on actively securing the Company's short to medium-term cash flows by minimising the exposure to volatile financial markets.

The Company does not actively engage in the trading of financial assets for speculative purposes nor does it write options. The most significant financial risks to which the Company is exposed are described below.

(A) Credit risk

Credit risk refers to the risk of default on its obligation by the counter party resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables as summarised below:

Assets under credit risk	As at 31 March 2025	As at 31 March 2024
Investments	1.51	1.51
Trade receivables	1,325.15	1,845.67
Cash and cash equivalents	32.42	87.21
Bank balances other than cash and cash equivalents	118.75	129.55
Other financial assets	349.91	287.04
Total	1,827.74	2,350.98

A1 Trade receivables

Trade receivables are typically unsecured and are derived from revenue earned from customers located in India and outside India. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, 'Financial Instruments', the Company uses expected credit loss model to assess the impairment loss or gain. The provision for expected credit loss takes into account available external and internal credit risk factors including the credit ratings of the various customers and Company's historical experience for customers.

Movement in loss allowance	As at 31 March 2025	As at 31 March 2024
Loss allowance as at the beginning	647.62	557.39
Changes in loss allowance	53.12	90.23
Loss allowance as at the end	700.74	647.62

Cash and cash equivalents and bank balances other than cash and cash equivalents

The credit risk for cash and cash equivalents and bank balances is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

Financial assets that are neither past due nor impaired

Loans and advances to employees, security deposits and other financial assets are neither past due nor impaired.

Financial assets that are past due but not impaired

There are no other classes of financial assets that is past due but not impaired.

Expected credit loss for trade receivables under simplified approach

The Company applies the Ind AS 109 simplified model of recognising lifetime expected credit losses for all trade receivables as these items do not have a significant financing component. In measuring the expected credit losses, the trade receivables have been assessed on a collective basis as they possess shared credit risk characteristics. They have been grouped based on the days past due.

(B) Liquidity risk

Liquidity risk is that the Company might be unable to meet its obligations. The Company manages its liquidity needs by monitoring scheduled debt servicing payments for long-term financial liabilities as well as forecast cash inflows and outflows on a day-to-day business. The data used for analyzing these cash flows is consistent with that used in the contractual maturity analysis below. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on a monthly, quarterly, and yearly basis depending on the business needs. Net cash requirements are compared to available borrowing facilities in order to determine headroom or any shortfalls. This analysis shows that available borrowing facilities are expected to be sufficient over the lookout period.

(C) Market risk

The Company is exposed to market risk through its use of financial instruments and specifically to currency risk, interest rate risk and certain other price risk, which result from both its operating and investing activities.

(i) Foreign currency sensitivity

The Company operates internationally and has transactions in USD, Euro and GBP currency and consequently the Company is exposed to foreign exchange risk through its sales to overseas customers. The exchange rate between the rupee and foreign currencies may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates/depreciates against these currencies.

Foreign currency denominated financial assets which expose the Company to currency risk are fully hedged by derivative cover.

Foreign currency denominated financial assets and liabilities which expose the Company to currency risk are disclosed below. These include outstanding derivatives contracts entered into by the Company and unhedged foreign currency exposures.

Included In	Currency	As at 31 March 2025		As at 31 March 2024	
		Amount in foreign currency	Amount in ₹	Amount in foreign currency	Amount in ₹

Sensitivity

The following table details the Company's sensitivity to a 1% increase and decrease in the ₹ against the relevant foreign currencies. 1% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year-end for a 1% change in foreign currency rates, with all other variables held constant. A positive number below indicates an increase in profit or equity where ₹ strengthens 1% against the relevant currency. For a 1% weakening of ₹ against the relevant currency, there would be a comparable impact on profit or equity, and the balances below would be negative.

Particulars	Increase	Decrease	Increase	Decrease
	31 March 2025	31 March 2025	31 March 2024	31 March 2024
Sensitivity				
INR/USD	2.71	(2.71)	7.38	(7.38)
INR/EURO	0.83	(0.83)	-	-

Derivative financial instruments

The forward contracts in the financial year 2024-25 or 2023-24 are nil.

(ii) Interest rate risk

The Company's fixed rate borrowings are carried at amortized cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, 'Financial Instruments' - Disclosures. As neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

41 Employee benefit obligations

The Company has provided for the gratuity liability and leave encashment liability (defined benefit plan), as per actuarial valuation carried out by an independent actuary on the Balance Sheet date.

a) Defined contribution plan

The company makes contribution to statutory provident fund as per Employees Provident Fund and Miscellaneous Provision Act, 1952 for its employees. Also the company makes contribution to superannuation fund for its employees. This is a defined contribution plan as per Ind AS 19, Employee benefits. Total contribution made during the year ₹ 1,647.56 (31 March 2024: ₹ 1,680.90).

b) Defined benefit plans

The company has provided for gratuity and leave encashment liability, for its employees as per actuarial valuation carried out by an independent actuary on the Balance Sheet date. The valuation has been carried out using the Project Unit Credit Method as per Ind AS 19 to determine the present value of Defined Benefit Obligations and the related current service cost. This is a defined benefit plan as per Ind AS 19.

The gratuity plan is governed by the provisions of the Payment of Gratuity Act, 1972 (as amended from time to time). Employees are entitled to all the benefits enlisted under this Act.

c) Sensitivity analysis

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary overtime. Thus, the company is exposed to various risks in providing the above benefit which are as follows:

i) Interest rate risk

The present value of the defined benefit liability is calculated using a discount rate determined by reference to market yields of Government bonds. The estimated term of the bonds is consistent with the estimated term of the defined benefit obligation (DBO) and it is denominated in INR. A decrease in market yield on government bonds will increase the Company's defined benefit liability.

ii) Liquidity risk

This is the risk when the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash/cash equivalents to meet the liabilities or holding of illiquid assets not being sold in time.

iii) Salary escalation risk

The present value of the defined benefit plan is calculated with the assumption of salary increase rate of employees in future. Deviation in the rate of interest in future for employees from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

iv) Demographic risk

The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.

v) Regulatory risk

Gratuity benefits are paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts.

	As at 31 March 2025	As at 31 March 2024
Changes in the present value of the defined benefit obligation are as follows:		
Projected benefit obligation at the beginning of the year	5,636.57	5,075.86
Interest cost	337.17	333.96
Current service cost	305.98	297.61
Benefits paid	(1,356.37)	(568.89)
Actuarial (gain)/loss	463.98	498.03
Projected benefit obligation at the end of the year	5,387.33	5,636.57
Current liability	941.89	938.38
Non-current liability	4,445.44	4,698.19
Unfunded	5,387.33	5,636.57
Components of net gratuity costs are:		
Current service cost	305.98	297.61
Interest cost	337.17	333.96
Net amount recognised in the income statement	643.15	631.57
Remeasurements		
Net actuarial loss	463.98	498.03
Net amount recognised in other comprehensive income	463.98	498.03
Total gratuity cost recognised	1,107.13	1,129.60
Principal actuarial assumptions used:		
a) Discount rate	6.80%	6.97%
b) Long-term rate of compensation increase	5.00%	5.00%
c) Attrition rate	3.00%	3.00%
d) Mortality rate	Indian Institute of Arbitration & Mediation (2012-2015)	Indian Institute of Arbitration & Mediation (2012-2015)

The estimates of rate of escalation in salary considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is certified by the actuary. The discount rate is based on the prevailing market yields of Indian government securities as at the balance sheet date for the estimated term of the obligations.

Estimated Future payments

	As at 31 March 2025	As at 31 March 2024
Year 1	973.39	970.53
Year 2	1,040.08	1,044.63
Year 3	965.27	1,135.84
Year 4	1,064.06	997.77
Year 5	1,018.37	1,087.74
6 to 10	4,617.81	4,861.75
More than 10 years	6,243.97	6,749.21

The significant actuarial assumptions for the determination of the defined benefit obligation are the attrition rate, discount rate and the long-term rate of compensation increase. The calculation of the net defined benefit liability is sensitive to these assumptions. The following table summarises the effects of changes in these actuarial assumptions on the defined benefit liability at 31 March 2025 and 31 March 2024.

Gratuity

Particulars	Year ended 31 March 2025		Year ended 31 March 2024	
	Increase	Decrease	Increase	Decrease
Discount rate (- / + 0.5%)	5,208.65	5,576.77	5,448.75	5,835.67
Salary growth rate (- / + 0.5%)	5,576.44	5,207.44	5,835.58	5,447.27
Attrition rate (- / + 0.5%)	5,397.16	5,377.50	5,647.22	5,625.92
Mortality rate (- / + 10%)	5,403.56	5,371.10	5,653.75	5,619.39

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The method and type of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The above litigations are considered as Key audit matter.

42 (B) Land litigations not considered as Key audit matter

- a. The Government by order dated 04 January 2008 directed the Company to remit an amount ₹ 96.84 lakhs alleging violation of lease condition in Mooply Valley Estates. The said order has been challenged before the Sub Court, Irinjalakuda and by order dated 08.04.2008 granted temporary prohibitory injunction restraining Government from taking any further action. On appeal filed by the Government, the Hon'ble High Court by judgment dated 04 August 2008 sustained the order of injunction and directed the Company to furnish security for ₹ 96.84 lakhs and accordingly the Company has furnished bank guarantee for the said amount and the suit is still pending.
- b. An area of 1074.18 hectares (approximate) [31 March 2024: 1074.18 hectares (approximate)] in respect of which cases filed by "Janmies" (original owners) of Koney, Kaliyar and Arrapetta Estates challenging the validity of the lease is pending before the Sub-Court, Pathanamthitta, Sultan Bathery, Thodupuzha and High Court of Kerala.
- c. An area of 178 hectares (approximately) [31 March 2024: 178 hectares (approximate)] deemed to have been vested with the Government of Kerala pursuant to Kerala Private Forests (Vesting and Assignment) Act, 1971, as the Company's claim for the exclusion of the area from the purview of the Act is pending decision of the Forest Tribunal, Palghat and restoration by the Forest Department.
- d. The Vythiri Taluk Land Board's order directing the Company to surrender 707 hectares (approximately) [31 March 2024: 707 hectares (approximate)] as excess land under the Kerala Land Reforms Act, 1963 has been set aside by the High Court of Kerala on a revision petition filed by the Company and the matter has been remanded to the Vythiri Taluk Land Board for fresh consideration and disposal.
- e. An area of 415 hectares (approximately) [31 March 2024: 415 hectares (approximate)] held to be surplus under the Tamil Nadu Land Reforms (Fixation of Ceiling on Land) Act, 1961 as the Special Land Tribunal, Madras has remanded the matter for fresh consideration by the Authorised Officer, Coimbatore.
- f. The Government of Kerala vide G.O dated 27 June 2018 waived the levy of Seigniorage on rubber trees cut and removed from the rubber plantations. A writ petition has been filed before the Hon'ble High Court of Kerala challenging the said

Government Order and the Hon'ble Court by interim order dated 18 February 2019 has permitted felling of trees on condition that a bond, undertaking to pay Seigniorage is furnished to the Government of Kerala, if ultimately the writ petition is allowed. The matter is pending consideration.

- g. An extent of approximately 142 Hectares of rubber planted area in Kumbazha Estate has been encroached by the members of Sadhu Jana Vimochana Samyuktha Vedi in 2007 and the Company filed a writ petition seeking eviction of the encroachers and Police protection to its property. By judgment dated 24 August 2007, the Hon'ble High Court directed the Government to evict the encroachers. However, the said direction was not complied with and a contempt case in this connection is still pending consideration before the Hon'ble High Court.
- h. The Special Officer appointed by the Government had issued a notice under the Kerala Land Conservancy Act, for inspecting the properties of the company in Wayanad District. The company challenged the notice before the Hon'ble High Court of Kerala and by judgment dated 11 April 2018 the said notice was set aside by the Hon'ble Court. The Government filed a review petition in the matter and by order dated 06 August 2018 the Hon'ble Court directed the Company to file its objections to the inspection notice. Accordingly the Company has filed its detailed objection with relevant documents with the Special Officer, who has intimated that since Government is filing a civil suit no further action is being initiated against the Company under Land Conservancy Act.
- i. An area of 2.36 Hectares in respect of which a civil suit filed by Government of Kerala seeking declaration of title and recovery of possession of property in Mundakkal in Kollam District is currently pending consideration before the Subordinate Judges Court Kollam.

In the opinion of the management the outcome of above litigations will be in favour of the Company and there is no financial impact.

47 The Ministry of Corporate Affairs (MCA) has prescribed a new requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules 2021 requiring companies which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled.

The Company uses a legacy accounting software to process the payrolls of estate workers and also to maintain the fixed asset records. Since this is an age-old software and is at the risk of obsolescence, the Company is currently in the process of migrating the books of accounts related to estate workers and fixed assets completely to MS Dynamics 365 and hence audit trail feature was not there in such accounting software.

The Company uses SaaS based accounting software for maintaining its accounting records. The 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation) does not include details on the existence on audit trail feature and for record retention at the database level. However, the audit trail (edit log) feature at the application level was operating for all relevant transactions recorded in such accounting software.

The Company uses another SaaS based accounting software for maintaining employee records and processing the paysheets of executives and staff. The said accounting software is operated by a third-party software service provider. The 'Independent Service Auditor's Report on a Description of the Service Organization's System and the Suitability of the Design and Operating Effectiveness of Controls' (based on the criteria for a description of a service organization's system as set forth in DC Section 200, 2018 Description Criteria for a Description of a Service Organization's System in a SOC 2 Report, in AICPA Description criteria), does not provide information on retention of audit trail (edit logs) for any direct changes made at the database level. However, the audit trail (edit log) feature at the application level was operating for all relevant transactions recorded in the software.

INDEPENDENT AUDITORS' REPORT

To the Members of Harrisons Malayalam Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Harrisons Malayalam Limited ('the Holding Company') and its subsidiary, Malayalam Plantations Limited (the Holding Company and its subsidiary together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at 31 March 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flow and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiary the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group, as at 31 March 2025, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained together with the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 15 of the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiary, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matters
<p>Land Litigations</p> <p>The Holding Company holds significant land for its operations as disclosed in note 3 to the consolidated financial statements. The significant land holdings are inherently prone to litigation risk.</p> <p>As disclosed in note 42(A) of the consolidated financial statements, the Holding Company has pending litigations with various courts, involving 17,318.21 hectares of land, which is significant considering the total area of cultivable land. The land litigations involve interpretation of various land laws applicable in the States of Kerala and Tamil Nadu. Accordingly, unexpected adverse outcomes may significantly impact the operations of the Holding Company.</p> <p>Considering the eventual outcome of the litigations is uncertain and the positions taken by the management are based on the application of the material judgement and reliance on legal opinions obtained, land litigations has been considered as a key audit matter for the current year audit.</p>	<p>Our audit procedures included, but were not limited to, the following:</p> <ul style="list-style-type: none">• Obtained an understanding of the management process for ascertaining the outcome of the land litigations and process performed by the management for its assessment;• Evaluated the design and tested the operating effectiveness of internal controls around management's assessment of the outcome of the land litigations;• Obtained an understanding of the nature of litigations pending against the Holding Company and discussed the key developments during the year for key litigations with the management and respective legal counsels handling such cases on behalf of the Holding Company and tested the independence, objectivity and competence of such management experts involved;• Monitored and considered the external information sources to confirm our understanding of litigations;

	<ul style="list-style-type: none"> • Obtained and reviewed on a sample basis the necessary evidence which includes correspondence with the external legal counsels and where necessary, inspected minutes of case proceedings available, to support the decisions and rationale of such litigation selected for testing; • Reviewed each attorney response obtained as above to ensure that the conclusions reached are supported by sufficient legal rationale and adequate information is included for the management to determine the appropriate accounting treatment of such cases in the consolidated financial statements; and • Evaluated the adequacy and appropriateness of disclosures made relating to provisions and contingent liabilities in the accompanying consolidated financial statements in accordance.
<p>Valuation of finished goods including standing crops</p> <p>Refer to note 2(j) for accounting policy for valuation of inventory and significant estimates and accounting judgements, assumptions related thereto and the note 7 of the consolidated financial statements for details of inventory.</p> <p>As at 31 March 2025, the Group held. ₹1,994.28 lakhs of inventories. Inventories mainly consists of finished goods and standing crops, which is valued at lower of cost or net realizable value.</p> <p>The Group values its finished goods inventory of tea and rubber (including biological assets) at lower of cost and net realizable value (estimated selling price less estimated cost to sell). Standing crops for tea and rubber at the reporting date are valued at their fair value less cost to sell at the point of harvest. The fair valuation so arrived at becomes the cost of Inventory. Considering that there is always a volatility in the selling price of tea and rubber, which is dependent upon various market conditions, determination of the net realizable value for these commodities involves significant management judgement. Moreover, the selling price fetched by tea produced at different estates are different.</p> <p>Owing to the significance of the carrying value of finished goods inventory (including biological assets) the complexities discussed above and the fact that any changes in the management's judgement or assumptions is likely to have a significant impact on the ascertainment of carrying values of inventories, valuation of finished goods (including biological assets) have been considered as a key audit matter for current year audit.</p>	<p>Our audit procedures included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Obtained an understanding of the management process for valuation of finished goods and ensured that the same is consistently applied; • Evaluated the design and tested the operating effectiveness of the internal controls relating to the valuation of inventories; • Obtained an understanding on the computation of the net realizable values of the finished goods and tested the reasonableness of the significant judgements applied by the management; • Compared the estate wise actual realization subsequent to reporting date and assessed the reasonableness of the net realizable value that was estimated and considered by the management; • Verified the actual costs incurred to sell after the year end and assessed the reasonableness of the cost to sell that was estimated and considered by the management; • Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value; and • Assessed the appropriateness and adequacy of disclosures related to finished goods inventory in accordance with the requirements of the applicable accounting standards.

Information other than the Consolidated Financial Statements and Auditor's Report thereon

6. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. which we obtained prior to the date of this auditor's report, and the annual report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the

work we have performed on the other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

7. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.
8. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
9. Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
11. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements, of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

15. We did not audit the financial statements of one subsidiary, whose financial statements reflect total assets of ₹0.20 Lakhs as at 31 March 2025, total revenues of nil and net cash outflows amounting to ₹0.17 Lakhs for the year ended on that date, as considered in the consolidated financial statements. This financial statements have been audited by other auditors whose reports has been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiary are based solely on the reports of the other auditors.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, based on our audit and on the consideration of the reports of the other auditors, referred to in paragraph 15, on separate financial statements of the subsidiary, we report that the Holding Company has paid remuneration to their respective directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act. Further, we report that one subsidiary incorporated in India whose financial statements have been audited under the Act have not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable in respect of such subsidiary.

As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order reports issued till date by us and by the respective other auditors as mentioned in paragraph 15 above, of companies included in the consolidated financial statements for the year ended 31 March 2025 and covered under the Act we report that following are the qualifications/ adverse remarks reported by us and the other auditors in the Order reports of the companies included in the consolidated financial statements for the year ended 31 March 2025 for which such Order reports have been issued till date and made available to us:

1	Harrisons Malayalam Limited	L01119KL1978PLC002947	Holding Company	i (c), ii(b), vii (a) (b)

17. As required by section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditor on separate financial statements and other financial information of the subsidiary incorporated in India whose financial statements have been audited under the Act, we report, to the extent applicable, that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
 - b) Except for the matters stated in paragraph 17(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors. Further, the back-up of the books of accounts and other books and papers maintained in electronic mode has not been maintained on servers physically located in India, on a daily basis;
 - c) The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
 - d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;
 - e) On the basis of the written representations received from the directors of the Holding Company, and taken on record by the Board of Directors of the Holding Company, and the reports of the statutory auditors of its subsidiary company covered under the Act, none of the directors of the Holding Company, its subsidiary, are disqualified as on 31 March 2025 from being appointed as a director in terms of section 164(2) of the Act;
 - f) The qualification relating to the maintenance of accounts and other matters connected therewith with respect to the consolidated financial statements are as stated in paragraph 17(b) above on reporting under section 143(3)(b) of the Act and paragraph 17(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended);
 - g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, and its subsidiary covered under the Act, and the operating effectiveness of such controls, refer to our separate report in 'Annexure I' wherein we have expressed an unmodified opinion; and
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and other financial information of the subsidiary incorporated in India whose financial statements have been audited under the Act:
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, as detailed in Note 33 and 42 to the consolidated financial statements;
 - ii. The Holding Company, its subsidiary company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2025;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary covered under the Act, during the year ended 31 March 2025;
 - iv.
 - a. The respective managements of the Holding Company and its subsidiary company incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiary company respectively that, to the best of their knowledge and belief as disclosed in note 46(c) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Holding Company or its subsidiary to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company, or any such subsidiary ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
 - b. The respective managements of the Holding Company and its subsidiary incorporated in India whose

financial statements have been audited under the Act have represented to us and the other auditors of such subsidiary respectively that, to the best of their knowledge and belief, as disclosed in the note 46(d) to the accompanying consolidated financial statements, no funds have been received by the Holding Company or its subsidiary from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company, or any such subsidiary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- c. Based on such audit procedures performed by us and that performed by the auditors of the subsidiary, as considered reasonable and appropriate in the circumstances, nothing has come to our or other auditors' notice that has caused us or the other auditors to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
- v. The Holding Company and its subsidiary have not declared or paid any dividend during the year ended 31 March 2025.
- vi. As stated in note 47 to the consolidated financial statements and based on our examination which included test checks, except for the instances mentioned below, the Holding Company, in respect of financial year commencing on 1 April 2024, has used an accounting software for maintaining their books of account which have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. During the course of our audit we did not come across any instance of audit trail feature being tampered with. The audit trail has not been preserved by the Holding Company as per the statutory requirements for record retention. Further, due to absence of any information on preservation of audit trail in the Type 2 report, we are unable to comment on preservation of audit trail at the database level.

Nature of exception noted	Details of exception
Instances of accounting software for maintaining books of account which did not have a feature of recording audit trail (edit log) facility	The accounting software used for maintenance of property, plant and equipment and worker wages records of the Holding Company did not have a feature of recording audit trail (edit log) facility
Instances of accounting software maintained by a third party where we are unable to comment on the audit trail feature	<div>i) The accounting software used for maintenance of books of accounts of the Holding Company is operated by a third-party software service provider. In the absence of any information on existence of audit trail (edit logs) at database level in the 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation), we are unable to comment on whether audit trail feature with respect to the database of the said software was enabled and operated throughout the year.</div> <div>ii) The accounting software used for maintaining staff and executive payroll records of the Holding Company is operated by a third-party software service provider. The 'Independent Service Auditor's Report on the Description of the Service Organization's System and the Suitability of the Design and Operating Effectiveness of Controls' (based on the criteria for description of a service organization's system as set forth in DC Section 200, 2018 Description Criteria for a Description of a Service Organization's System in a SOC 2 Report, in AICPA Description criteria), does not provide information on retention of audit trail (edit logs) for any direct changes made at the database level. Accordingly, we are unable to comment on whether audit trail feature with respect to the database of the said software was operated throughout the year.</div>

The books and accounts of the subsidiary are maintained manually, accordingly, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 is not applicable.

Annexure I to the Independent Auditor's Report of even date to the members of Harrisons Malayalam Limited on the consolidated financial statements for the year ended 31 March 2025

Independent Auditor's Report on the internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Harrisons Malayalam Limited ('the Holding Company') and its subsidiary, Malayalam Plantations Limited (the Holding Company and its subsidiary together referred to as 'the Group'), as at and for the year ended 31 March 2025, we have audited the internal financial controls with reference to financial statements of the Holding Company, and its subsidiary company, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company, and its subsidiary company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on the Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company, and its subsidiary company, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company, and its subsidiary company as aforesaid.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to financial statements of the subsidiary company, the Holding Company, and its subsidiary company, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on the Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

9. We did not audit the internal financial controls with reference to financial statements in so far as it relates to one subsidiary company, which is a company covered under the Act, whose financial statements reflect total assets of ₹0.20 lakhs and negative net assets of ₹4.71 lakhs as at 31 March 2025, total revenues of nil and net cash outflows amounting to ₹0.17 lakhs for the year ended on that date, as considered in the consolidated financial statements. The internal financial controls with reference to financial statements in so far as it relates to such subsidiary company have been audited by other auditors whose report has been furnished to us by the management and our report on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements for the Holding Company, and its subsidiary company, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to such subsidiary company is based solely on the reports of the auditors of such company. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of the other auditors.

Notes forming part of the Consolidated financial statements

(All amounts in ₹ lakhs, unless otherwise stated)

1. Principles of consolidation

The Consolidated financial statements relates to Harrisons Malayalam Limited (the 'Holding Company') and its subsidiary (together referred to as the 'Group'). The Consolidated financial statements are in conformity with the Accounting Standards on "Consolidated financial statements" (Ind-AS 110) prescribed under Section 133 of the Companies Act 2013 of India (the 'Act') and are prepared as set out below:

- (i) The financial statements of the Holding Company and its subsidiary are combined on a line-by-line basis by adding together the book values of items like assets, liabilities, income and expenses, after eliminating material intra-group balances and intra-group transactions and resulting unrealised profits or losses on intra-group transactions
- (ii) The Consolidated financial statements are prepared by adopting uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent required and possible, in the same manner as the Holding Company's separate financial statements

Following subsidiary of the Holding Company has been considered in the preparation of these Consolidated financial statements

Name of the Company	% of share holding and voting power	
	As at 31 March 2025	As at 31 March 2024
Malayalam Plantations Limited	100%	100%

2. Summary of material accounting policies

a) Basis of preparation and presentation of financial statements

i) Statement of compliance with Indian Accounting Standards (Ind AS)

The Consolidated financial statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and as amended. The aforesaid Consolidated financial statements have been approved and authorised for issue by the Board of Directors at the meeting held on 23 May 2025.

ii) Basis of accounting and measurement

The Group has prepared these financial statements which comprise the Balance Sheet as at 31 March 2025, the Statement of Profit and Loss, the Statements of Cash Flows and the Statement of Changes in Equity for the year ended 31 March 2025, and accounting policies and other explanatory information (together hereinafter referred to as "Consolidated financial statements").

The Consolidated financial statements have been prepared using the material accounting policies and measurement bases summarized below. These accounting policies have been used throughout all periods presented in these financial statements except for the changes below.

The Consolidated financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, unless otherwise stated. All amounts included in the Consolidated financial statements are reported in Indian Rupees (₹) lakhs and have been rounded off to nearest decimal of ₹ lakhs.

b) Use of estimates

The preparation of the Consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The Group bases its estimates and assumptions on parameters available when the Consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Significant management judgements

The following are significant management judgements in applying the accounting policies of the Group that have the most significant effect on the amounts recognised in the Consolidated financial statements or that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Classification of leases

The Group enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at the end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialised nature of the leased asset.

Recoverability of advances / receivables

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Useful lives of depreciable / amortisable assets

Management reviews its estimate of the useful lives of depreciable / amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain items of property, plant and equipment.

Contingent liability

Management reviews its estimate of the financial impact of the contingent liability at each reporting date, based on the demands received from various Departmental authorities.

Litigations

Management reviews its estimate of the impact of the litigations liability at each reporting date, based on the land matters pending with various Courts.

Defined benefit obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Valuation of Agricultural Produce

Produce growing on bearer plants are biological assets and are 'fair valued' based on biological transformations. As at the Balance Sheet date, the management has determined that it can reliably measure the biological transformations of its growing produce and such growing produce and agricultural produce have been measured at 'fair values' based on the management's estimates of expected produce. 'Fair values' have been assessed at market prices at the reporting date and adjusted for estimates of costs to be incurred from the reporting date until harvest. Considering the susceptibility of the estimates to variations, these estimates and assumptions are reviewed at every reporting date until harvest and revisions to the 'fair values' carried out on a cumulative basis. Such variations are considered as change in estimates and are presented as part of changes in inventories of finished goods.

c) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has evaluated and considered its operating cycle as 12 months.

d) Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalised until the property, plant and equipment are ready for use, as intended by management.

Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Cost includes inward freight, non refundable duties/ taxes and expenses incidental to acquisition/installation. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Capital work in progress is stated at cost, net of accumulated impairment loss, if any

Expenses relating to new planting and further expenditure incurred at the replanted fields are capitalised.

Property, plant and equipment [other than freehold land and lease hold land (perpetual lease)] are depreciated under the written down value method [other than bearer plants (rubber trees and tea bushes) which are depreciated using straight line method] over the estimated useful lives of the assets, which are different from the lives prescribed under Schedule II to the Companies Act, 2013. The useful lives have been arrived at based on technical assessment of the management.

Freehold land and leasehold land (perpetual lease) are not depreciated.

Useful life adopted by the Group for various class of assets is as follows:

Asset category	Useful lives (in years)
Factory buildings	30
Non factory buildings	60
Plant and machinery (including agricultural assets)	3/ 20
Furniture and fittings	6
Water supply	20/ 30/ 60
Vehicles	10
Bearer plants - Rubber trees	28
Bearer plants - FSO	15-30
Bearer plants - Tea bushes	80

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each financial year end and, if expectations differ from previous estimates, the changes shall be accounted for as a change in an accounting estimate.

In the case of leasehold improvements, expected useful lives are determined as their useful life or over the term of the lease, if shorter.

Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the assets and are recognised in Consolidated statement of profit and loss within other income or other expenses.

e) Bearer Plants

Bearer plants are recognised under Property, Plant and Equipment on fulfilment of the following conditions.

1. Is used in the production or supply of agricultural produce;
2. Is expected to bear produce for more than one period; and
3. has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales."

Tea bushes and rubber trees are recognised as bearer biological assets. These are classified as mature bearer plants and immature bearer plants. Mature bearer plants are those that have attained harvestable stage. Cost incurred for new plantations and immature areas are capitalised. Cost includes cost of land preparation, new planting and maintenance till maturity. The cost of areas coming into bearing is transferred to mature plantations and depreciated over their estimated useful lives.

Bearer plants relating to Tea bushes and rubber trees attain a harvestable stage in about 4 years & 7 years respectively. Other minor crops attain harvestable stage in about 5-7 years.

Bearer biological assets are carried at cost less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure on bearer assets are added to its book value only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Mature bearer plants are depreciated over their estimated useful life. Immature bearer plants are tested for impairment / obsolescence. The estimated useful life of mature bearer plants is as follows:

Type of Bearer plants	Estimated useful life (in years)
Tea bushes	80
Rubber trees	28
FSO	15-30

Refer Para 2 (j) for accounting of agricultural produce.

f) Intangible assets and Intangible assets under development

Computer software is capitalised in the period in which the software is implemented for use, where it is expected to provide future enduring economic benefits; such capitalisation costs include license fees and cost of implementation/ system integration services.

Computer software capitalised are amortised on a straight line basis over a period of five years from the date of capitalisation.

Intangible assets not ready for the intended use on the date of the Balance Sheet are disclosed as intangible assets under development

g) Impairment of property, plant and equipment and intangible assets

The carrying amounts of property, plant and equipment are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of property, plant and equipment exceeds the recoverable amount (i.e. higher of net selling price and value in use). In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amounts of the assets over their remaining useful lives.

h) Assets held for sale

Items of property, plant and equipment that have been retired from active use and are held for disposal are stated at the lower of their net carrying amount and net realisable value and are shown separately in the Consolidated financial statements under the head 'Assets classified as held for sale'. Any write-down in this regard is recognised immediately in the Statement of Profit and Loss.

i) Revenue recognition

Revenue from contracts with customers is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Group as part of the contract.

The specific recognition criteria described below must also be met before revenue is recognised.

Revenue from sale of goods

Revenue from sale of tea at auction is recognized on receipt of the sale note from the brokers. Revenue from sale of tea other than at auction and sale of rubber is recognized on transfer of significant risks and rewards of ownership in goods in accordance with the terms of sale.

Revenue from contract with customers

The Group recognizes the amount as revenue from contracts with customers, which is received for the transfer of promised goods to customers in exchange for those goods. The relevant point in time or period of time is the transfer of control of the goods. Revenue is reduced for customer returns, taxes on sales, estimated rebates and other similar allowances. The transaction price is determined and allocated to the performance obligations according to the requirements of Ind AS 115. Performance obligations are deemed to have been met when the control of goods is transferred to the customer.

The Group has entered into a barter arrangement with vendors wherein the vendors are allowed to cultivate pineapple in few rubber estates with a condition that these vendors have to bear the cost of replanting of rubber plants in these estates, in lieu of cultivation rent otherwise payable by vendors to the Group. The transaction price in the above arrangement has been accounted at fair value as per Ind AS 115 Revenue from contracts with customers.

Interest income

Interest income is reported on an accrual basis using the effective interest method and is included under the head "Other income" in the Statement of Profit and Loss.

Export Incentive

Income from export incentives are recognised when right to receive credit as per the terms of the scheme is established and when there is certainty of realisation.

j) Inventories including biological assets / standing crops

Valuation of inventory of finished products of tea and rubber have been done as per Ind AS 2 'Inventories'. Raw materials, work in progress, traded and finished goods are stated at the lower of cost and net realisable value, net realisable value represents the estimated selling price less all estimated cost of completion and selling expenses. Cost is determined on weighted average basis and includes expenditure incurred in the normal course of business in bringing inventories to its location and condition, labour and overhead, where applicable. Stores and spares are carried at cost. Provision is made for obsolete, slow-moving and defective stocks, where necessary.

Produce growing on bearer plant is biological asset and are fair valued based on the biological transformation, except where on initial recognition quoted market prices are not available and alternate fair value measures are clearly unreliable in which case biological asset is measured at cost less any accumulated depreciation and impairment loss. Ind AS 41 'Agriculture' deals with the recognition and valuation of agricultural produce.

Tea and rubber viz. standing crops of tea and rubber are designated as agricultural produce as per Ind AS 41 and are measured at their fair value less cost to sell at the point of harvest. Any changes in fair value are recognised in the Statement of Profit and Loss in the year in which these arise upon harvest. The Group has valued its standing crops for tea and rubber at the reporting date at their fair value less cost to sell at the point of harvest. The fair valuation so arrived at becomes the cost of Inventory under Ind AS-2.

k) Employee benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Ind AS 19, Employee Benefits.

Defined contribution plan

(i) Provident fund

This is a defined contribution plan where contributions are remitted to provident fund authorities in accordance with the relevant statute and charged to the Statement of Profit and Loss in the period in which the related employee services are rendered. The Group has no further obligations for future provident fund benefits in respect of these employees other than its monthly contributions.

(ii) Superannuation

This is a defined contribution plan. The Group contributes as per the scheme to superannuation fund administered by Life Insurance Corporation of India (LIC). The Group has no further obligations for future superannuation benefits other than its annual contributions and recognises such contributions as expense in the period in which the related employee services are rendered.

Defined benefit plan

(i) **Gratuity**

This is a defined benefit plan. Provision is based on year-end actuarial valuation using projected unit credit method. Actuarial gains / losses are recognised immediately in the Statement of Profit and Loss as income or expense.

(ii) **Compensated absences**

This is a defined benefit plan. Provision is based on year-end actuarial valuation using projected unit credit method. Actuarial gains/ losses are recognised immediately in the Statement of Profit and Loss as income or expense.

The present value of the defined benefit obligation denominated in ₹ is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Service cost on the Group's defined benefit plan is included in employee benefits expense. Employee contributions, all of which are independent of the number of years of service, are treated as a reduction of service cost. Gains and losses through re-measurements of the defined benefit plans are recognised in other comprehensive income, which are not reclassified to profit or loss in a subsequent period. Further, as required under Ind AS compliant Schedule III, the Group transfers those amounts recognised in other comprehensive income to retained earnings in the statement of changes in equity and balance sheet.

Short-term employee benefits

Short-term employee benefits comprise of employee costs such as salaries, bonus etc. These benefits recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

l) Foreign currency transactions

Functional and presentation currency

The functional currency of the Group is the Indian Rupee. These Consolidated financial statements are presented in Indian Rupees (₹).

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in Statement of Profit or Loss.

m) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

n) Investments in subsidiaries

The Group's investment in equity instruments in subsidiaries are accounted for at cost. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is transferred to the Statement of Profit and Loss.

o) Government grants/ Subsidy

Revenue subsidy receivable from Tea Board towards manufacture of orthodox tea is accrued on production of orthodox tea. Revenue subsidy receivable from Tea Board towards replanting activities undertaken is accounted on sanction of such subsidy by the Tea Board. Capital subsidy from Tea Board and Rubber Board is adjusted against the cost of specific depreciable assets on receipt of such subsidy.

p) Income taxes

Income tax expense comprises of current and deferred income tax. Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognised as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

q) Provisions and contingencies

Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or it cannot be measured with sufficient reliability. The Group does not recognise a contingent liability but discloses its existence in the Consolidated financial statements."

r) Financial instruments

Financial assets

Initial recognition and measurement

Financial assets (other than trade receivables) are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through statement of profit and loss which are measured initially at fair value. Subsequent measurement of financial assets is described below. Trade receivables are recognised at their transaction price as the same do not contain significant financing component.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified and measured based on the entity's business model for managing the financial asset and the contractual cash flow characteristics of the financial asset at:

- a. Amortised cost
- b. Fair value through other comprehensive income (FVTOCI) or
- c. Fair value through profit or loss (FVTPL)

All financial assets are reviewed for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

(i) Financial asset at amortised cost

Includes assets that are held within a business model where the objective is to hold the financial assets to collect contractual cash flows and the contractual terms gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are measured subsequently at amortised cost using the effective interest method. The loss allowance at each reporting period is evaluated based on the expected credit losses for next 12 months and credit risk exposure. The Group shall also measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.

(ii) *Financial assets at fair value through other comprehensive income (FVTOCI)*

Includes assets that are held within a business model where the objective is both collecting contractual cash flows and selling financial assets along with the contractual terms giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. At initial recognition, the Group, based on its assessment, makes an irrevocable election to present in other comprehensive income the changes in the fair value of an investment in an equity instrument that is not held for trading. These elections are made on an instrument-by instrument (i.e., share-by-share) basis. If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, impairment gains or losses and foreign exchange gains and losses, are recognised in other comprehensive income. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. The dividends from such instruments are recognised in statement of profit and loss.

The fair value of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

The loss allowance at each reporting period is evaluated based on the expected credit losses for next 12 months and credit risk exposure. The Group shall also measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. The loss allowance shall be recognised in other comprehensive income and shall not reduce the carrying amount of the financial asset in the balance sheet.

(iii) *Financial assets at fair value through profit or loss (FVTPL)*

Financial assets at FVTPL include financial assets that are designated at FVTPL upon initial recognition and financial assets that are not measured at amortised cost or at fair value through other comprehensive income. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply. Assets in this category are measured at fair value with gains or losses recognised in statement of profit and loss. The fair value of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

The loss allowance at each reporting period is evaluated based on the expected credit losses for next 12 months and credit risk exposure. The Group shall also measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. The loss allowance shall be recognised in the statement of profit and loss.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's Consolidated balance sheet) when:

- a. The rights to receive cash flows from the asset have expired, or
- b. The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (i) the Group has transferred substantially all the risks and rewards of the asset, or (ii) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109 Financial Instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Group has not designated any financial liability as at fair value through profit and loss.

Loans and borrowings

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derivative financial instruments

Initial recognition and subsequent measurement

The Group uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

s) Impairment of financial assets

In accordance with Ind AS 109 Financial Instruments, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

The Group tracks credit risk and changes thereon for each customer. For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity uses the remaining contractual term of the financial instrument.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The Group uses default rate for credit risk to determine impairment loss allowance on portfolio of its trade receivables.

Trade receivables

The Group applies approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of receivables."

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

The presumption under Ind AS 109 with reference to significant increases in credit risk since initial recognition (when financial assets are more than 30 days past due), has been rebutted and is not applicable to the Group, as the Group is able to collect a significant portion of its receivables that exceed the due date."

t) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

u) Segment reporting

The Group is engaged in plantations having tea and rubber estates. The business segments identified for segment reporting are Tea, Rubber and Others as the Chief Operating Decision Maker (CODM), reviews business performance at these levels. The Group has considered business segments as the primary segment. The business segments are tea, rubber and others which have been identified taking into account the organisational structure as well as the differing risks and returns of these segments.

v) Earnings/ (loss) per share (EPS)

Basic EPS are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the Group (after adjusting for interest on the convertible preference shares, if any) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

w) Leases

Effective from 1st April 2019, the Group adopted Ind AS 116 – Leases and applied the standard to all lease contracts existing as on 1st April 2019 using the modified retrospective method on the date of initial application i.e. 1st April 2019.

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

i. As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate. Subsequently, the lease liability is measured at amortised cost using the effective interest method.

It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short term leases of real estate properties that have a lease term of 12 months. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Operating Lease

In the comparative period, leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

ii. As a lessor

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature."

x) Cash and cash equivalents

Cash and cash equivalent in the statement of financial position comprises of cash at banks and on hand, demand deposits, short-term deposits with an original maturity of three months or less and highly liquid investments that are readily convertible into known amounts of cash, which are subject to an insignificant risk of changes in value.

y) Recent accounting pronouncements

Standards issued but not effective on Balance Sheet date:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended March 31, 2025, MCA has notified Ind AS 117 - Insurance Contracts and amendments to Ind As 116 – Leases, relating to sale and lease back transactions, applicable from April 1, 2024. The Group has assessed that there is no significant impact on its financial statements.

Ind AS 21 - Foreign Currency Reporting

The amendments gives clear guidance on how to estimate the 'spot exchange rate' when two currencies cannot be exchanged easily. The new rules will be effective from April 2025. The Group does not expect this amendment to have any significant impact in its financial statements.

(v) **Capitalised borrowing cost**

The capitalisation rate used to determine the amount of borrowing cost to be capitalised is the interest rate applicable to the Group's specific borrowings. Interest rate during the years ended 31 March 2025 and 31 March 2024 is MCLR plus applicable spread. Borrowing costs capitalised during the year ended 31 March 2025 ₹ 62.54 (31 March 2024: ₹ 44.50).

(vi) **Capital commitments**

Refer note 33 (b)

(vii) **Property, plant and equipment have not been revalued during the year.**

(viii) **Adjustments represent regrouping/reclassification of gross block and accumulated depreciation to ensure appropriate classification and to align with fixed assets register. There is no impact on the written down value as at 31 March 2025.**

Notes

- The Group has adopted Ind AS 116 on "Leases" with effect from 01 April, 2019 by applying it to all applicable contracts of leases existing on 1 April, 2019 by using modified retrospective approach.
- The Group has leases for the land for office buildings which is reflected in the Consolidated balance sheet as a right-of-use asset and a lease liability. The Group classifies its right-of-use assets in a consistent manner to its property, plant and equipment (refer note (e) below, 2 (w), 3.1)
- Leases can be cancelled by giving advance notice or incurring a termination fee. The Company is prohibited from selling or pledging the underlying leased assets as security.
- The Group has recognised and measured the Right-of-Use asset (refer note (a)) and the lease liability (refer note 15) over the remaining lease period and payments discounted using the incremental borrowing rate as at the date of initial application. For financial year ended 31 March 2025, the depreciation for the ROU asset is ₹ 11.01 (31 March 2024: ₹ 11.01) and finance costs for interest accrued on lease liability is ₹ 40.61 (31 March 2024: ₹ 40.25). The Group has created a provision against subsidy receivable as on 31 March 2024 from Tea Board India amounting to ₹ 757.93, claimed under "Orthodox Production Subsidy Scheme", as there is uncertainty in receipt of the above claim. During the year ended 31 March 2024, the same had been disclosed as an exceptional item in the statement of profit and loss. The Group has filed a writ petition with High Court of Kerala to direct Tea Board India to release the subsidy amounts and is hopeful of getting a favourable verdict.

* Based on the sanction letter from banks, value of four months standing crops has been considered in the returns filed with banks. The value of 14 days' crop for tea and 4 days' crop for rubber has been considered for the purpose of valuation in the financial statements, on a prudent basis.

** The difference is on account of adjustments to valuation of inventory on change in net realisable value.

^ The difference is on account of reversal of revenue from contracts where performance obligation was met after the cut off date.

The above adjustments in respect of inventory and receivables are made after the date of initial filing of quarterly returns, but before the finalisation of books of accounts for the respective quarters. Revised statements have been filed with the bank, which are in agreement with the books of accounts.

Other disclosures under Ind AS Schedule III

Assets:

The management assessed that the fair value of cash and cash equivalents, trade receivables, loans, other financial assets, trade payables, other financial liabilities and working capital loans approximately the carrying amount largely due to short-term maturity of this instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

(ii) Fair value of financial assets and liabilities measured at amortised cost

The management assessed that for amortised cost instruments, fair value approximately largely to the carrying amount.

(iii) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(iv) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments: The fair value of foreign exchange forward contracts is determined using market observable inputs, including prevalent forward rates for the maturities of the respective contracts and interest rate curves as indicated by banks and third parties.

39 Capital management

The capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to maximise the shareholder value.

40 Financial risk management

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's focus is to foresee the unpredictability of financial markets and seek to minimise potential adverse effects on it's financial performance. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer.

The risk management activity focuses on actively securing the Group's short to medium-term cash flows by minimising the exposure to volatile financial markets.

The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options. The most significant financial risks to which the Group is exposed to are described below.

(A) Credit risk

Credit risk refers to the risk of default on its obligation by the counter party resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables as summarised below:

Assets under credit risk	As at 31 March 2025	As at 31 March 2024
Investments	1.01	1.01
Trade receivables	1,325.15	1,845.67
Cash and cash equivalents	32.42	87.38
Bank balances other than cash and cash equivalents	118.75	129.55
Other financial assets	350.11	287.23
Total	1,827.44	2,350.84

A1 Trade receivables

Trade receivables are typically unsecured and are derived from revenue earned from customers located in India and outside India. Credit risk has always been managed by the Group through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. On account of adoption of Ind AS 109, 'Financial Instruments', the Group uses expected credit loss model to assess the impairment loss or gain. The provision for expected credit loss takes into account available external and internal credit risk factors including the credit ratings of the various customers and Group's historical experience for customers.

Movement in loss allowance	As at 31 March 2025	As at 31 March 2024
Loss allowance as at the beginning	647.62	557.39
Changes in loss allowance	53.12	90.23
Loss allowance as at the end	700.74	647.62

Cash and cash equivalents and bank balances other than cash and cash equivalents

The credit risk for cash and cash equivalents and bank balances is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

Financial assets that are neither past due nor impaired

Loans and advances to employees, security deposits and other financial assets are neither past due nor impaired.

Financial assets that are past due but not impaired

There are no other classes of financial assets that is past due but not impaired.

(B) Liquidity risk

Liquidity risk is that the Group might be unable to meet its obligations. The Group manages its liquidity needs by monitoring scheduled debt servicing payments for long-term financial liabilities as well as forecast cash inflows and outflows on a day-to-day business. The data used for analyzing these cash flows is consistent with that used in the contractual maturity analysis below. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on a monthly, quarterly, and yearly basis depending on the business needs. Net cash requirements are compared to available borrowing facilities in order to determine headroom or any shortfalls. This analysis shows that available borrowing facilities are expected to be sufficient over the lookout period.

(C) Market risk

The Group is exposed to market risk through its use of financial instruments and specifically to currency risk, interest rate risk and certain other price risk, which result from both its operating and investing activities.

(i) Foreign currency sensitivity

The Group operates internationally and has transactions in USD, Euro and GBP currency and consequently the Group is exposed to foreign exchange risk through its sales to overseas customers. The exchange rate between the rupee and foreign currencies may fluctuate substantially in the future. Consequently, the results of the Group's operations are adversely affected as the rupee appreciates/depreciates against these currencies.

Foreign currency denominated financial assets which expose the Group to currency risk are fully hedged by derivative cover.

Foreign currency denominated financial assets and liabilities which expose the Group to currency risk are disclosed below. These include outstanding derivatives contracts entered into by the Group and unhedged foreign currency exposures.

Included In	Currency	As at 31 March 2025		As at 31 March 2024	
		Amount in foreign currency	Amount in ₹	Amount in foreign currency	Amount in ₹

Sensitivity

The following table details the Group's sensitivity to a 1% increase and decrease in the ₹ against the relevant foreign currencies. 1% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year-end for a 1% change in foreign currency rates, with all other variables held constant. A positive number below indicates an increase in profit or equity where ₹ strengthens 1% against the relevant currency. For a 1% weakening of ₹ against the relevant currency, there would be a comparable impact on profit or equity, and the balances below would be negative.

Particulars	Increase	Decrease	Increase	Decrease
	31 March 2025	31 March 2025	31 March 2024	31 March 2024
Sensitivity

INR/EURO	0.83	(0.83)	-	-

Derivative financial instruments

The forward contracts in the financial year 2024-25 or 2023-24 are nil.

(ii) Interest rate risk

The Group's fixed rate borrowings are carried at amortized cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, 'Financial Instruments' - Disclosures. As neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

41 Employee benefit obligations

The Group has provided for the gratuity liability and leave encashment liability (defined benefit plan), as per actuarial valuation carried out by an independent actuary on the Balance Sheet date.

a) Defined contribution plan

The Group makes contribution to statutory provident fund as per Employees Provident Fund and Miscellaneous Provision Act, 1952 for its employees. Also the Group makes contribution to superannuation fund for its employees. This is a defined contribution plan as per Ind AS 19, "Employee benefits". Total contribution made during the year ₹ 1,647.56 (31 March 2024: ₹ 1,680.90).

b) Defined benefit plans

The Group has provided for gratuity and leave encashment liability, for its employees as per actuarial valuation carried out by an independent actuary on the Balance Sheet date. The valuation has been carried out using the Project Unit Credit Method as per Ind AS 19 to determine the present value of Defined Benefit Obligations and the related current service cost. This is a defined benefit plan as per Ind AS 19.

The gratuity plan is governed by the provisions of the Payment of Gratuity Act, 1972 (as amended from time to time). Employees are entitled to all the benefits enlisted under this Act.

c) Sensitivity analysis

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary overtime. Thus, the Group is exposed to various risks in providing the above benefit which are as follows:

i) Interest rate risk

The present value of the defined benefit liability is calculated using a discount rate determined by reference to market yields of Government bonds. The estimated term of the bonds is consistent with the estimated term of the defined benefit obligation (DBO) and it is denominated in INR. A decrease in market yield on government bonds will increase the Group's defined benefit liability.

ii) Liquidity risk

This is the risk when the Group is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash/cash equivalents to meet the liabilities or holding of illiquid assets not being sold in time.

iii) Salary escalation risk

The present value of the defined benefit plan is calculated with the assumption of salary increase rate of employees in future. Deviation in the rate of interest in future for employees from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

iv) Demographic risk

The Group has used certain mortality and attrition assumptions in valuation of the liability. The Group is exposed to the risk of actual experience turning out to be worse compared to the assumption.

v) Regulatory risk

Gratuity benefits are paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts.

	As at 31 March 2025	As at 31 March 2024
Changes in the present value of the defined benefit obligation are as follows:		
Projected benefit obligation at the beginning of the year	5,636.57	5,075.86
Interest cost	337.17	333.96
Current service cost	305.98	297.61
Benefits paid	(1,356.37)	(568.89)
Actuarial (gain)/loss	463.98	498.03
Projected benefit obligation at the end of the year	5,387.33	5,636.57
Current liability	941.89	938.38
Non-current liability	4,445.44	4,698.19
Unfunded	5,387.33	5,636.57
Components of net gratuity costs are:		
Current service cost	305.98	297.61
Interest cost	337.17	333.96
Net amount recognised in the income statement	643.15	631.57
Remeasurements		
Net actuarial (gain)/loss	463.98	498.03
Net amount recognised in other comprehensive income	463.98	498.03
Total gratuity cost recognised	1,107.13	1,129.60
Principal actuarial assumptions used:		
a) Discount rate	6.80%	6.97%
b) Long-term rate of compensation increase	5.00%	5.00%
c) Attrition rate	3.00%	3.00%
d) Mortality rate	Indian Institute of Arbitration & Mediation (2012-2015)	Indian Institute of Arbitration & Mediation (2012-2015)

The estimates of rate of escalation in salary considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is certified by the actuary. The discount rate is based on the prevailing market yields of Indian government securities as at the balance sheet date for the estimated term of the obligations.

Estimated Future payments

	As at 31 March 2025	As at 31 March 2024
Year 1	973.39	970.53
Year 2	1,040.08	1,044.63
Year 3	965.27	1,135.84
Year 4	1,064.06	997.77
Year 5	1,018.37	1,087.74
6 to 10	4,617.81	4,861.75
More than 10 years	6,243.97	6,749.21

The significant actuarial assumptions for the determination of the defined benefit obligation are the attrition rate, discount rate and the long-term rate of compensation increase. The calculation of the net defined benefit liability is sensitive to these assumptions. The following table summarises the effects of changes in these actuarial assumptions on the defined benefit liability at 31 March 2025 and 31 March 2024.

Gratuity

Particulars	Year ended 31 March 2025		Year ended 31 March 2024	
	Increase	Decrease	Increase	Decrease
Discount rate (- / + 0.5%)	5,208.65	5,576.77	5,448.75	5,835.67
Salary growth rate (- / + 0.5%)	5,576.44	5,207.44	5,835.58	5,447.27
Attrition rate (- / + 0.5%)	5,397.16	5,377.50	5,647.22	5,625.92
Mortality rate (- / + 10%)	5,403.56	5,371.10	5,653.75	5,619.39

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The method and type of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

- An area of 297.17 hectares in respect of which a civil suit filed by Government of Kerala seeking declaration of title and recovery of possession of part of Arrapetta tea estate in Wayanad district is currently pending consideration before Subordinate Judges Court, Sultan Bathery.
- An area of 184.40 hectares in respect of which a civil suit filed by Government of Kerala seeking declaration of title and recovery of possession of Touramulla tea estate in Wayanad district is currently pending consideration before Subordinate Judges Court, Sultan Bathery.

- j. An area of 3,683.19 hectares in respect of which a civil suit filed by Government of Kerala seeking declaration of title and recovery of possession of Moongalaar, Wallardie, Pattumallay and Panniar tea estates in Idukki district is currently pending consideration before Subordinate Judges Court, Kattapana.
- k. An area of 1982.45 hectares (31 March 2024: 1982.45 hectares) of Mooply Valley estates notified by the Government of Kerala for resumption alleging violation of lease conditions as proceedings has been stayed by the Sub Court, Irinjalakuda.

The above litigations are considered as key audit matter.

42 (B) Land litigations not considered as key audit matter

- a. The Government by order dated 04 January 2008 directed the Holding Company to remit an amount ₹ 96.84 lakhs alleging violation of lease condition in Mooply Valley Estates. The said order has been challenged before the Sub Court, Irinjalakuda and by order dated 08 April 2008 granted temporary prohibitory injunction restraining Government from taking any further action. On appeal filed by the Government, the Hon'ble High Court by judgment dated 04 August 2008 sustained the order of injunction and directed the Holding Company to furnish security for ₹ 96.84 lakhs and accordingly the Holding Company has furnished bank guarantee for the said amount and the suit is still pending.
- b. An area of 1074.18 hectares (approximately) [31 March 2024: 1074.18 hectares (approximately)] in respect of which cases filed by "Janmies" (original owners) of Koney, Kaliyar and Arrapetta Estates challenging the validity of the lease is pending before the Sub-Court, Pathanamthitta, Sultan Bathery, Thodupuzha and High Court of Kerala.
- c. An area of 178 hectares (approximately) [31 March 2024: 178 hectares (approximately)] deemed to have been vested with the Government of Kerala pursuant to Kerala Private Forests (Vesting and Assignment) Act, 1971, as the Holding Company's claim for the exclusion of the area from the purview of the Act is pending decision of the Forest Tribunal, Palghat and restoration by the Forest Department.
- d. The Vythiri Taluk Land Board's order directing the Holding Company to surrender 707 hectares (approximately) [31 March 2024: 707 hectares (approximately)] as excess land under the Kerala Land Reforms Act, 1963 has been set aside by the High Court of Kerala on a revision petition filed by the Holding Company and the matter has been remanded to the Vythiri Taluk Land Board for fresh consideration and disposal.
- e. An area of 415 hectares (approximately) [31 March 2024: 415 hectares (approximately)] held to be surplus under the Tamil Nadu Land Reforms (Fixation of Ceiling on Land) Act, 1961 as the Special Land Tribunal, Madras has remanded the matter for fresh consideration by the Authorised Officer, Coimbatore.
- f. The Government of Kerala vide G.O dated 27 June 2018 waived the levy of Seigniorage on rubber trees cut and removed from the rubber plantations. A writ petition has been filed before the Hon'ble High Court of Kerala challenging the said Government Order and the Hon'ble Court by interim order dated 18 February 2019 has permitted felling of trees on condition that a bond, undertaking to pay Seigniorage is furnished to the Government of Kerala, if ultimately the writ petition is allowed. The matter is pending consideration.
- g. An extent of approximately 142 hectares of rubber planted area in Kumbazha Estate has been encroached by the members of Sadhu Jana Vimochana Samyuktha Vedi in 2007 and the Holding Company filed a writ petition seeking eviction of the encroachers and Police protection to its property. By judgment dated 24 August 2007, the Hon'ble High Court directed the Government to evict the encroachers. However, the said direction was not complied with and a contempt case in this connection is still pending consideration before the Hon'ble High Court.
- h. The Special Officer appointed by the Government had issued a notice under the Kerala Land Conservancy Act, for inspecting the properties of the Holding Company in Wayanad District. The Holding Company challenged the notice before the Hon'ble High Court of Kerala and by judgment dated 11 April 2018 the said notice was set aside by the Hon'ble Court. The Government filed a review petition in the matter and by order dated 06 August 2018 the Hon'ble Court directed the Holding Company to file its objections to the inspection notice. Accordingly the Holding Company has filed its detailed objection with relevant documents with the Special Officer, who has intimated that since Government is filing a civil suit no further action is being initiated against the Holding Company under Land Conservancy Act.
- i. An area of 2.36 hectares in respect of which a civil suit filed by Government of Kerala seeking declaration of title and recovery of possession of property in Mundakkal in Kollam District is currently pending consideration before the Subordinate Judges Court Kollam.

In the opinion of the management the outcome of above litigations will be in favour of the Group and there is no financial impact.

- 47** The Ministry of Corporate Affairs (MCA) has prescribed a new requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules 2021 requiring companies which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled.

The Group uses a legacy accounting software to process the payrolls of estate workers and also to maintain the fixed asset records. Since this is an age-old software and is at the risk of obsolescence, the Group is currently in the process of migrating the books of accounts related to estate workers and fixed assets completely to MS Dynamics 365 and hence audit trail feature was not there in such accounting software.

The Group uses SaaS based accounting software for maintaining its accounting records. The 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation) does not include details on the existence on audit trail feature and for record retention at the database level. However, the audit trail (edit log) feature at the application level was operating for all relevant transactions recorded in such accounting software.

The Group uses another SaaS based accounting software for maintaining employee records and processing the paysheets of executives and staff. The said accounting software is operated by a third-party software service provider. The 'Independent Service Auditor's Report on a Description of the Service Organization's System and the Suitability of the Design and Operating Effectiveness of Controls' (based on the criteria for a description of a service organization's system as set forth in DC Section 200, 2018 Description Criteria for a Description of a Service Organization's System in a SOC 2 Report, in AICPA Description criteria), does not provide information on retention of audit trail (edit logs) for any direct changes made at the database level. However, the audit trail (edit log) feature at the application level was operating for all relevant transactions recorded in the software.
